Mengapa CRM Bukan Lagi Pilihan

Bayangkan Anda punya toko offline. Setiap customer datang, Anda ingat namanya, preferensinya, kapan terakhir belanja. Hubungan personal ini yang membuat mereka kembali.

CRM digital adalah versi scalable dari itu.

Data dari Salesforce menunjukkan 66% customer mengharapkan perusahaan memahami kebutuhan unik mereka. HubSpot melaporkan bisnis yang implement CRM mengalami peningkatan 29% dalam sales conversion dan 27% dalam customer retention.

Untuk UMKM Indonesia, CRM bukan lagi kemewahan. Ini kebutuhan.

Evolusi CRM: Dari Rolodex ke AI

Era 1980-an: Rolodex dan Spreadsheet Customer data dicatat di kartu, disimpan di kotak putar. Ribet, mudah hilang, tidak bisa dianalisis.

Era 1990-an: Database Sederhana Aktis, Siebel, dan Salesforce lahir. CRM jadi software, tapi masih mahal dan kompleks. Hanya enterprise yang mampu.

Era 2000-an: Cloud CRM Salesforce pindah ke cloud. Harga turun, akses naik. UMKM mulai bisa pakai.

Era 2010-an: Social CRM CRM terintegrasi dengan social media. Customer engagement jadi multi-channel.

Era 2020-an: AI-Powered CRM Machine learning memprediksi behavior, mengotomatisasi interaksi, dan memberikan insight real-time.

CRM untuk Konteks Indonesia

Pasar Indonesia unik. Customer lebih suka komunikasi personal via WhatsApp. Mobile-first. Harga sensitif tapi loyal jika dilayani baik.

CRM di Indonesia harus:

- Terintegrasi WhatsApp (wajib, bukan opsional)
- Mobile-friendly (85% akses via smartphone)
- Support multi-bahasa (Bahasa Indonesia + Inggris minimal)
- Harga terjangkau (UMKM budget terbatas)
- Mudah digunakan (tidak perlu training berminggu-minggu)

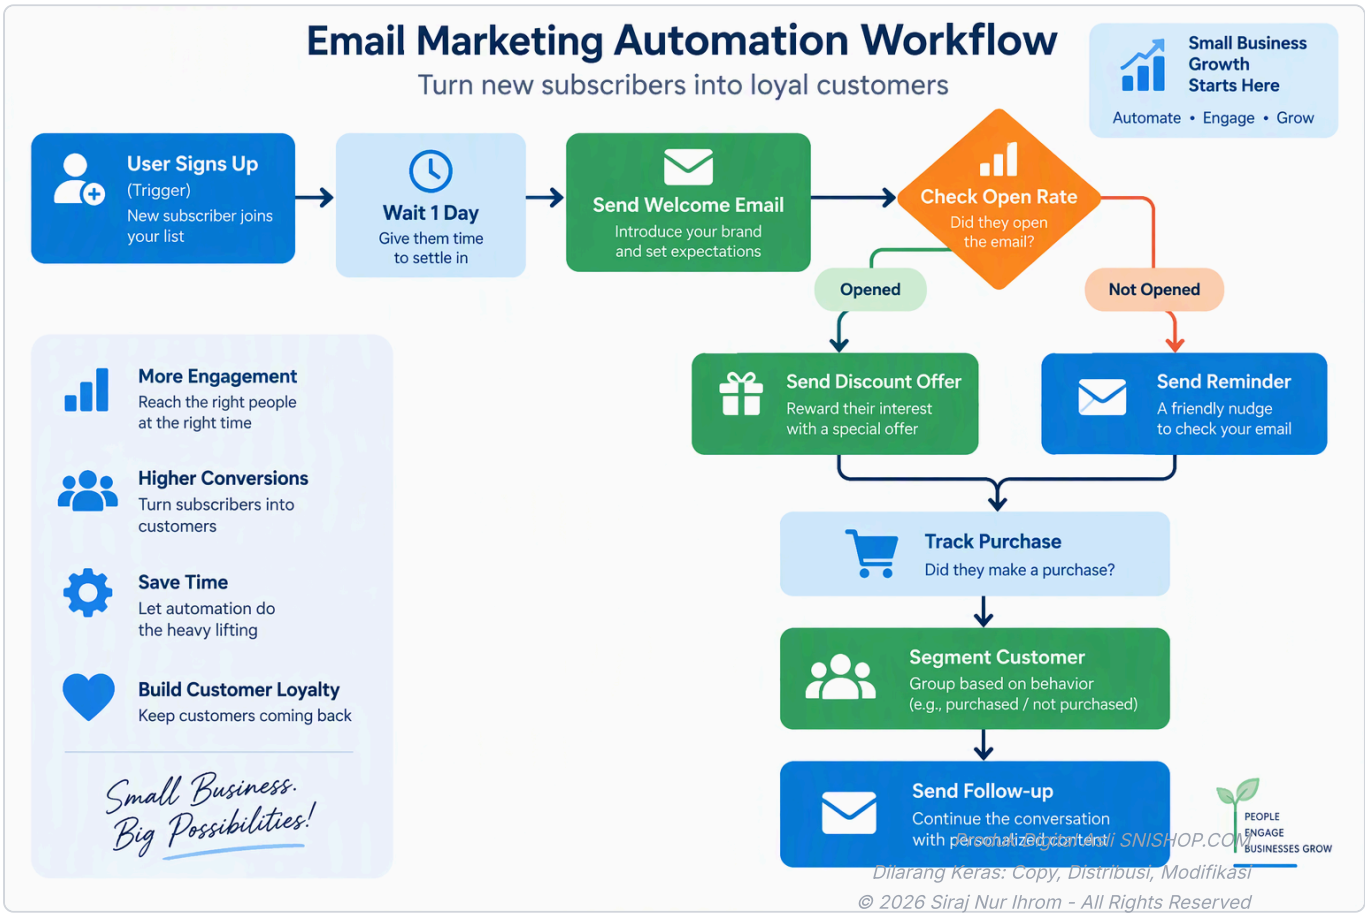
Apa yang Akan Anda Pelajari

Bab-bab berikutnya akan memandu Anda melalui:

- Memahami customer journey dan touchpoints
- Memilih platform CRM yang tepat
- Setup dan konfigurasi dari nol
- Manajemen data dan segmentasi
- Automasi marketing dan sales
- Customer service excellence
- Analytics dan optimasi

Setiap bab berisi teori, contoh nyata, dan langkah praktis yang bisa langsung Anda terapkan.

Bab 2: Memahami Customer Journey



Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

Apa Itu Customer Journey?

Customer journey adalah perjalanan lengkap seseorang dari tidak tahu brand Anda menjadi customer loyal, bahkan advocate.

Journey ini bukan linear. Customer bisa loncat-loncat antar stage, mundur, atau berhenti di tengah. Tugas Anda adalah memetakan dan mengoptimasi setiap touchpoint.

5 Stage Customer Journey

Stage 1: Awareness (Kesadaran) Customer baru tahu Anda ada. Bisa dari Instagram ads, rekomendasi teman, Google search, atau lihat toko offline.

Contoh: Budi scroll Instagram, lihat ads kopi susu Anda. "Oh, ada brand baru."

Stage 2: Consideration (Pertimbangan) Customer mulai riset. Bandingkan Anda dengan kompetitor. Baca review. Cek harga.

Contoh: Budi buka website Anda, lihat menu, baca testimoni. "Hmm, menarik. Tapi ada brand lain yang lebih murah."

Stage 3: Purchase (Pembelian) Customer memutuskan beli. Ini momen kritis. Proses harus mudah, cepat, tidak ribet.

Contoh: Budi order via WhatsApp. Anda balas cepat, kasih link pembayaran QRIS. Done.

Stage 4: Retention (Retensi) Customer sudah beli. Pertanyaannya: apakah mereka kembali? Retention dimulai setelah purchase.

Contoh: Seminggu kemudian, Anda kirim WhatsApp: "Budi, kopinya gimana? Kalau suka, minggu depan ada promo beli 2 gratis 1."

Stage 5: Advocacy (Advokasi) Customer jadi fan. Rekomendasikan ke teman, posting di social media, review positif.

Contoh: Budi posting di Instagram Story: "Kopi susu paling enak di Jakarta! Wajib coba." Tag akun Anda.

Touchpoints: Di Mana Anda Berinteraksi?

Touchpoint adalah setiap titik kontak antara customer dan brand Anda.

Pre-Purchase Touchpoints:

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

- Social media (Instagram, TikTok, Facebook)
- Website atau landing page
- Google search results
- Word of mouth (rekomendasi)
- Iklan (online atau offline)

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

- Marketplace (Tokopedia, Shopee)

Purchase Touchpoints:

- Sales conversation (WhatsApp, chat website)
- Checkout process
- Payment confirmation
- Invoice atau receipt

Post-Purchase Touchpoints:

- Delivery tracking
- Customer support
- Follow-up message
- Loyalty program
- Request review atau testimoni

Memetakan Journey untuk Bisnis Anda

Latihan praktis:

1. **List semua touchpoints** Ambil kertas atau buka notes. Tuliskan setiap titik customer berinteraksi dengan bisnis Anda. Dari pertama kali tahu sampai beli berulang.
2. **Identifikasi pain points** Di stage mana customer sering drop? Misalnya, banyak yang add to cart tapi tidak checkout. Berarti ada masalah di purchase stage.
3. **Kumpulkan data** Gunakan analytics (Google Analytics, Instagram Insights) untuk lihat behavior customer. Di mana mereka masuk? Di mana mereka keluar?
4. **Buat persona** Kelompokkan customer berdasarkan karakteristik. Misalnya: "Mahasiswa hemat", "Professional sibuk", "Ibu rumah tangga".
5. **Optimasi per stage** Untuk setiap stage, tanyakan: "Apa yang bisa kami lakukan untuk make ini lebih baik?"

Contoh Nyata: Kopi Nusantara

Awareness:

- Instagram ads targeting mahasiswa Jakarta
- Endorsement micro-influencer
- Google Ads untuk keyword "kopi susu Jakarta"

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

Consideration:

- Website dengan menu lengkap dan harga
- Instagram feed dengan foto produk estetik

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

- Testimoni customer di highlight story

Purchase:

- Order via WhatsApp (fast response)
- Link pembayaran QRIS atau e-wallet
- Konfirmasi order otomatis

Retention:

- WhatsApp broadcast promo mingguan
- Loyalty program: beli 10 gratis 1
- Birthday discount

Advocacy:

- Request review setelah delivery
- Repost customer story
- Referral program: ajak teman, dapat voucher

Tools untuk Mapping

Gratis:

- Google Sheets (buat matrix journey)
- Miro (visual mapping, free plan available)
- Lucidchart (diagram flow)

Berbayar:

- HubSpot CRM (free tier includes journey mapping)
- Salesforce (advanced, enterprise-level)
- Zoho CRM (affordable untuk UMKM)

KPI Customer Journey

Apa yang harus Anda ukur?

- **Awareness:** Reach, impressions, website visits
- **Consideration:** Time on site, pages per session, add to cart rate
- **Purchase:** Conversion rate, average order value, cart abandonment rate
- **Retention:** Repeat purchase rate, customer lifetime value (CLV), churn rate
- **Advocacy:** Net Promoter Score (NPS), referral rate, social mentions

Bab 3: Strategi CRM untuk UMKM

Mengapa Strategi Itu Penting?

Punya software CRM tanpa strategi seperti punya mobil tanpa tahu mau ke mana. Anda akan jalan di tempat, bakar bensin, tidak sampai tujuan.

Strategi CRM menjawab:

- Apa tujuan bisnis Anda?
- Siapa target customer?
- Bagaimana cara engage mereka?
- Tools apa yang dipakai?
- Bagaimana ukur keberhasilan?

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

3 Tipe Strategi CRM

1. Operational CRM Fokus: Efisiensi proses internal.

Contoh:

- Automasi follow-up lead

- Template response WhatsApp
- Workflow approval penjualan
- Integration dengan accounting software

Tools: HubSpot, Zoho, Salesforce

2. Analytical CRM Fokus: Analisis data untuk insight.

Contoh:

- Segmentasi customer berdasarkan purchase history
- Predictive analytics untuk churn
- Cohort analysis untuk retention
- Lifetime value calculation

Tools: Google Analytics + CRM, Tableau, Power BI

3. Collaborative CRM Fokus: Komunikasi antar tim dan dengan customer.

Contoh:

- Shared inbox untuk customer service
- Internal notes di customer profile
- Handoff dari sales ke support
- Customer portal untuk self-service

Tools: Intercom, Zendesk, Freshdesk

Strategi CRM untuk UMKM Indonesia

UMKM punya karakteristik unik:

- Tim kecil (1-10 orang)
- Budget terbatas
- Butuh quick win
- Customer relationship sangat personal

Strategi yang works:

Strategi 1: WhatsApp-First CRM

Di Indonesia, WhatsApp adalah raja. Customer lebih suka chat daripada email atau telepon.

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

Implementasi:

- Gunakan WhatsApp Business API
- Template message untuk broadcast
- Quick reply untuk pertanyaan umum

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

- Label untuk kategorisasi customer
- Integration dengan CRM (HubSpot, Zoho support WhatsApp)

Contoh workflow:

1. Customer chat WhatsApp: "Halo, mau tanya produk X"
2. Auto-reply: "Terima kasih sudah menghubungi Kami. Admin akan balas dalam 5 menit."
3. Admin balas manual dengan template
4. Data customer otomatis masuk CRM
5. Follow-up otomatis 3 hari kemudian

Strategi 2: Personalization at Scale

Customer Indonesia suka pendekatan personal. Mereka bukan nomor, mereka manusia.

Implementasi:

- Simpan data personal: nama, ulang tahun, preferensi
- Kirim ucapan ulang tahun otomatis
- Rekomendasi produk berdasarkan history
- Sapa dengan nama di setiap komunikasi

Contoh:

- Email: "Halo Budi, semoga sehat selalu!"
- WhatsApp: "Budi, kopi favoritmu lagi promo nih!"
- Invoice: "Terima kasih Budi, pesananmu sedang diproses."

Strategi 3: Community Building

Orang Indonesia suka komunitas. Mereka ingin jadi bagian dari sesuatu.

Implementasi:

- Buat grup WhatsApp atau Telegram untuk customer loyal
- Share exclusive content dan promo
- Host live session (Instagram Live, Zoom)
- User-generated content campaign

Contoh:

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

- Grup WhatsApp "Kopi Nusantara Family"
- Setiap minggu share tips brewing kopi
- Member grup dapat diskon 15%
- Customer posting foto kopi mereka, repost di Instagram brand

Strategi 4: Loyalty Program

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

Retensi lebih murah daripada akuisisi. Loyalty program membuat customer kembali.

Implementasi:

- Point-based system: setiap beli dapat poin
- Tier-based: Bronze, Silver, Gold
- Referral program: ajak teman, dapat reward
- Birthday reward

Contoh:

- Beli Rp 10.000 = 1 poin
- 100 poin = voucher Rp 50.000
- Silver (500 poin): free delivery
- Gold (1000 poin): diskon 20% semua produk

Memilih Strategi yang Tepat

Tidak ada one-size-fits-all. Pilih berdasarkan:

Jenis Bisnis:

- B2C retail: WhatsApp-First + Loyalty Program
- B2B services: Analytical CRM + Personalization
- F&B: Community Building + Loyalty Program
- E-commerce: WhatsApp-First + Personalization

Ukuran Tim:

- 1-3 orang: Fokus WhatsApp-First saja dulu
- 4-10 orang: Tambah Personalization
- 10+ orang: Implementasi semua strategi

Budget:

- < Rp 500K/bulan: Free tools (HubSpot Free, Zoho Free)
- Rp 500K-2 juta/bulan: Paid tools (Zoho Standard, HubSpot Starter)
- > *Rp 2 juta/bulan: Advanced tools (Salesforce, HubSpot Professional)*

Menyusun Rencana Strategis

Template rencana strategis CRM:

1. Visi "Menjadi brand kopi paling dicintai di Jakarta melalui pelayanan personal dan konsisten."

2. Tujuan

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

- Tingkatkan repeat purchase rate dari 20% ke 40% dalam 6 bulan
- Capai NPS 70 dalam 12 bulan
- Kurangi response time WhatsApp ke < 5 menit

3. Target Customer

- Mahasiswa Jakarta, usia 18-25
- Professional muda, usia 26-35
- Pecinta kopi, intermediate level

4. Strategi

- WhatsApp-First CRM
- Personalization at scale
- Community building via grup WhatsApp

5. Tools

- HubSpot CRM (free tier)
- WhatsApp Business API (via Fonnte atau Wablas)
- Instagram + TikTok untuk engagement

6. KPI

- Repeat purchase rate
- NPS (Net Promoter Score)
- WhatsApp response time
- Customer lifetime value

7. Timeline

- Bulan 1: Setup HubSpot + WhatsApp integration
- Bulan 2: Launch loyalty program
- Bulan 3: Buat grup WhatsApp community
- Bulan 4-6: Optimasi dan scale

Common Mistakes

Mistake 1: Terlalu Banyak Fitur Tidak perlu pakai semua fitur CRM. Pilih yang relevan dengan strategi Anda.

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

Mistake 2: Data Tidak Dibersihkan Data duplikat, tidak lengkap, atau outdated bikin CRM tidak berguna. Rutin bersihkan data.

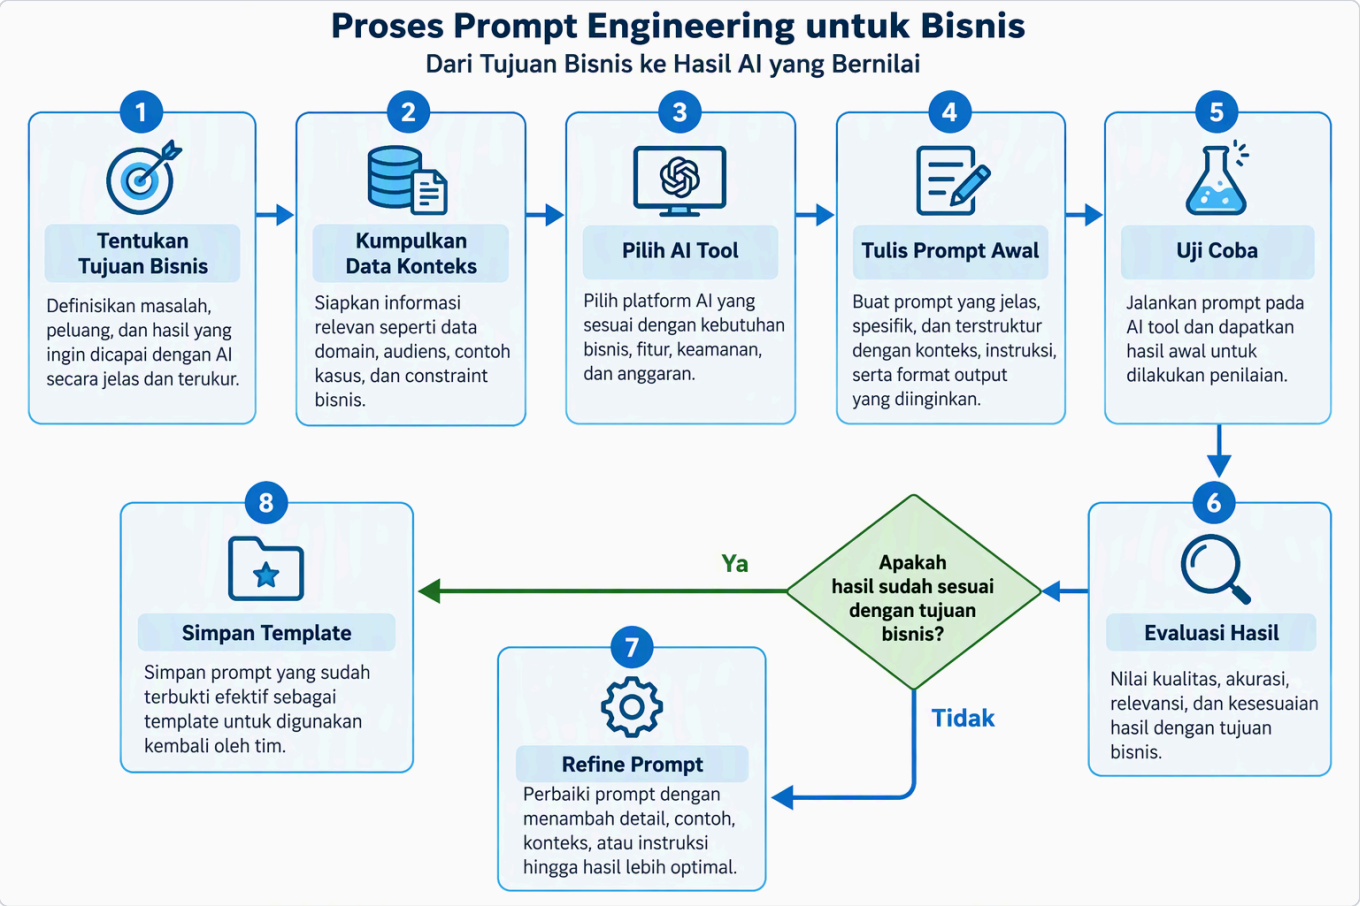
Mistake 3: Tidak Ada Follow-Up CRM bukan magic. Anda harus disiplin follow-up. Set reminder dan workflow.

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

Mistake 4: Mengabaikan Feedback Customer komplain? Itu emas. Dengarkan, catat di CRM, perbaiki.

Mistake 5: Tidak Ukur Hasil Kalau tidak diukur, tidak bisa diperbaiki. Track KPI setiap minggu.

Bab 4: Memilih Platform CRM



Landscape Platform CRM

Ratusan platform CRM ada di luar sana. Mana yang tepat untuk UMKM Indonesia?

Mari kita breakdown berdasarkan kategori:

Category 1: All-in-One CRM

- HubSpot
- Salesforce
- Zoho CRM
- Freshsales

Category 2: WhatsApp-Centric CRM

- Qontak (Indonesia)

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

- Wablas
- Fonnte
- Mekari Qontak

Category 3: E-commerce Focused

- Shopify (built-in CRM)
- WooCommerce (plugin CRM)
- Magento (enterprise)

Category 4: Open Source

- SuiteCRM
- Odoo CRM
- EspoCRM

Deep Dive: Platform Populer

HubSpot CRM

Kelebihan:

- Free tier sangat generous (unlimited users, 1 million contacts)
- User interface intuitif
- Integration dengan banyak tools
- Marketing automation included
- Excellent documentation dan support

Kekurangan:

- Paid plans mahal (mulai $50/bulan)
- Fitur advanced hanya di tier tinggi
- WhatsApp integration terbatas di free tier

Cocok untuk:

- Startup dan UMKM yang baru mulai
- Bisnis yang butuh marketing automation
- Tim yang ingin scale gradually

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

Harga:

- Free: Unlimited contacts, basic features
- Starter: $50/bulan (2 users)
- Professional: $800/bulan (5 users)
- Enterprise: $3,200/bulan (10 users)

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

Zoho CRM

Kelebihan:

- Harga terjangkau (mulai $14/bulan)
- Fitur lengkap di semua tier
- WhatsApp integration native
- Mobile app bagus
- Customization tinggi

Kekurangan:

- UI agak kompleks untuk beginner
- Support kurang responsif di free tier
- Beberapa fitur hanya di add-on

Cocok untuk:

- UMKM dengan budget terbatas
- Bisnis yang butuh WhatsApp integration
- Tim yang ingin custom workflow

Harga:

- Free: 2 users, basic features
- Standard: $14/bulan per user
- Professional: $23/bulan per user
- Enterprise: $40/bulan per user

Salesforce

Kelebihan:

- Platform paling powerful dan flexible
- Ecosystem app terbesar (AppExchange)
- AI-powered insights (Einstein AI)
- Scalable untuk enterprise
- Best practices dan methodology lengkap

Kekurangan:

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

- Sangat mahal (mulai $25/bulan per user, tapi real cost jauh lebih tinggi)
- Kompleks, butuh consultant untuk setup
- Overkill untuk UMKM kecil

Cocok untuk:

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

- Enterprise dan mid-size business
- Bisnis dengan kompleksitas tinggi
- Perusahaan yang butuh advanced analytics

Harga:

- Essentials: $25/bulan per user
- Professional: $75/bulan per user
- Enterprise: $150/bulan per user
- Unlimited: $300/bulan per user

Freshsales

Kelebihan:

- UI modern dan clean
- Built-in phone dan email
- AI lead scoring
- Affordable untuk fitur yang didapat
- Good customer support

Kekurangan:

- Marketing automation terbatas
- Integration tidak sebanyak HubSpot
- Brand kurang dikenal di Indonesia

Cocok untuk:

- Sales-focused team
- B2B businesses
- Startup yang butuh quick setup

Harga:

- Free: Unlimited users, basic features
- Growth: $9/bulan per user
- Pro: $39/bulan per user
- Enterprise: $49/bulan per user

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

Qontak (Indonesia)

Kelebihan:

- WhatsApp Business API official (Meta partner)
- Dibuat khusus untuk pasar Indonesia

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

- Support Bahasa Indonesia
- Harga dalam Rupiah
- Local payment methods

Kekurangan:

- Fitur CRM tidak selengkap global players
- Integration terbatas
- Documentation kurang lengkap

Cocok untuk:

- Bisnis yang WhatsApp-first
- UMKM yang ingin support lokal
- Company yang butuh WhatsApp automation

Harga:

- Starter: Rp 500K/bulan
- Business: Rp 1.5 juta/bulan
- Enterprise: Custom

Framework Pemilihan

Gunakan framework ini untuk memilih:

Step 1: Tentukan Kebutuhan Utama

- Apa goal utama Anda? (sales, marketing, customer service?)
- Channel apa yang paling penting? (WhatsApp, email, phone?)
- Berapa banyak user yang butuh akses?
- Apa budget bulanan Anda?

Step 2: List Fitur Must-Have Buat tabel:

Fitur	Priority (1-5)	Notes
WhatsApp integration	5	Wajib untuk Indonesia
Email marketing	3	Nice to have
Mobile app	4	Penting untuk field sales
Reporting	4	Untuk evaluasi
Automation	3	Untuk efisiensi

Produk Digital Asli SNISHOP.COM
Dilarang Keras Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

Step 3: Shortlist 3 Platform Berdasarkan kebutuhan, pilih 3 platform untuk dicoba.

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

Contoh:

- Kalau budget terbatas dan butuh WhatsApp: Zoho CRM
- Kalau butuh marketing automation: HubSpot
- Kalau WhatsApp-first: Qontak

Step 4: Trial dan Evaluasi Daftar free trial masing-masing platform. Gunakan selama 2 minggu dengan kriteria:

- Ease of use (1-10)
- Feature completeness (1-10)
- Integration capability (1-10)
- Customer support quality (1-10)
- Value for money (1-10)

Step 5: Putuskan Hitung total skor. Pilih yang tertinggi, tapi juga pertimbangkan gut feeling.

Rekomendasi Berdasarkan Profil Bisnis

Profil 1: UMKM Kuliner (Warung, Kafe, Restoran)

- Platform: Qontak atau Zoho CRM
- Alasan: WhatsApp integration, affordable, easy to use
- Budget: Rp 500K - 1 juta/bulan

Profil 2: E-commerce Fashion

- Platform: HubSpot CRM
- Alasan: Marketing automation, email campaigns, analytics
- Budget: Free - $50/bulan

Profil 3: B2B Services (Konsultan, Agency)

- Platform: Freshsales atau Zoho CRM
- Alasan: Sales pipeline management, lead scoring
- Budget: $9 - $23/bulan per user

Profil 4: Retail Multi-Outlet

- Platform: Salesforce atau Zoho CRM Enterprise
- Alasan: Multi-location support, advanced reporting
- Budget: $40 - $150/bulan per user

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

Kode Referral Eksklusif

Gunakan kode referral ini untuk diskon khusus:

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

- HubSpot: SNISHOPTH (20% off Starter plan 6 bulan)
- Zoho CRM: SNISHOPZO (30% off tahun pertama)
- Freshsales: SNISHOPFS (Free 3 bulan Growth plan)
- Qontak: SNISHOPQT (Free setup + 1 bulan gratis)

Checklist Pemilihan

Sebelum memutuskan, pastikan:

- [ ] Platform support WhatsApp integration
- [ ] Harga sesuai budget
- [ ] UI mudah digunakan (trial minimal 2 minggu)
- [ ] Ada mobile app
- [ ] Integration dengan tools lain yang Anda pakai
- [ ] Customer support responsif
- [ ] Fitur reporting dan analytics
- [ ] Scalable untuk pertumbuhan bisnis

Bab 5: Setup dan Konfigurasi

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

YANG SIAP MELANGKAH LEBIH JAUH

Praktis. Relevan. Berdampak.

Persiapan Sebelum Setup

Sebelum mulai setup, siapkan:

1. Data Customer Existing Kumpulkan semua data customer yang sudah ada:

- Spreadsheet (Excel, Google Sheets)
- Kontak WhatsApp
- Email subscribers
- Social media followers
- Transaction history

2. Define User Roles Tentukan siapa yang akan pakai CRM:

- Admin (full access)
- Sales team (lead dan customer data)
- Marketing (campaign dan analytics)
- Customer service (ticket dan interaction)

3. Workflow Mapping Gambar alur kerja Anda:

- Bagaimana lead masuk?
- Siapa yang follow-up?
- Kapan handoff dari sales ke support?
- Apa trigger untuk automation?

Setup HubSpot CRM (Step-by-Step)

Step 1: Create Account

1. Buka hubspot.com
2. Klik "Get started free"
3. Isi form: nama, email, password
4. Verifikasi email
5. Login ke dashboard

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

Step 2: Company Setup

1. Klik Settings (icon gear)
2. Pilih "Account Defaults"
3. Isi informasi perusahaan:

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

- Company name
- Address
- Phone number
- Website
- Logo

4. Save

Step 3: User Management

1. Settings > Users & Teams
2. Klik "Invite users"
3. Masukkan email tim Anda
4. Pilih role: Admin, Standard, atau Custom
5. Set permissions
6. Send invitation

Step 4: Import Contacts

1. Contacts > Import
2. Pilih "Import from file"
3. Upload CSV atau Excel
4. Map columns:
   - Column A = First Name
   - Column B = Last Name
   - Column C = Email
   - Column D = Phone
   - dst.
5. Review dan confirm
6. Wait for import to complete

Step 5: Create Custom Properties

1. Settings > Properties
2. Klik "Create property"
3. Isi:
   - Object type: Contact
   - Group: Custom properties
   - Label: "Customer Segment"
   - Name: "customer_segment"
   - Field type: Dropdown

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

- Options: Bronze, Silver, Gold

4. Save
5. Ulangi untuk property lain yang dibutuhkan

Step 6: Setup Email Integration

1. Settings > Integrations > Email
2. Pilih email provider:
   - Gmail: Connect via OAuth
   - Outlook: Connect via OAuth
   - Other: IMAP/SMTP
3. Follow authentication flow
4. Test connection
5. Enable email tracking

Step 7: Configure WhatsApp (via Integration) HubSpot tidak native support WhatsApp. Gunakan third-party:

1. Settings > Integrations
2. Search "WhatsApp"
3. Pilih provider (Fonnte, Wablas, atau Twilio)
4. Klik "Connect"
5. Scan QR code WhatsApp Business Anda
6. Authorize integration
7. Test send message

Step 8: Create Pipelines

1. Settings > Objects > Deals > Pipelines
2. Klik "Create pipeline"
3. Name: "Sales Pipeline"
4. Add stages:
   - Lead In
   - Contacted
   - Qualified
   - Proposal Sent
   - Negotiation
   - Closed Won
   - Closed Lost
5. Save

Produk Digital Asli SNISHOP.COM

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

Step 9: Setup Automation

1. Automation > Workflows
2. Klik "Create workflow"
3. Choose type: Contact-based
4. Set enrollment trigger:
   - Example: "Form submission" atau "Page view"
5. Add actions:
   - Send email
   - Create task
   - Update property
   - Delay
6. Review dan activate

Step 10: Test Everything

1. Create test contact
2. Submit test form
3. Check if automation runs
4. Verify email tracking
5. Test WhatsApp integration
6. Check reporting

Setup Zoho CRM (Step-by-Step)

Step 1: Create Account

1. Buka zoho.com/crm
2. Klik "Sign up for free"
3. Isi form: nama, email, password
4. Verifikasi email
5. Login

Step 2: Organization Setup

1. Setup > Organization > Company Details
2. Isi informasi perusahaan
3. Upload logo
4. Save

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

Step 3: User Management

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

1. Setup > Users & Control > Users
2. Klik "Add User"
3. Isi: nama, email, role
4. Choose profile: Admin, Standard, Custom
5. Send invitation

Step 4: Import Data

1. Setup > Data Administration > Import
2. Pilih module: Leads, Contacts, Accounts
3. Upload CSV
4. Map fields
5. Import

Step 5: WhatsApp Integration (Native) Zoho punya WhatsApp integration built-in:

1. Setup > Channels > WhatsApp
2. Klik "Connect WhatsApp"
3. Pilih provider: Zoho sendiri atau Twilio
4. Scan QR code
5. Verify phone number
6. Configure settings:
   - Auto-reply message
   - Business hours
   - Routing rules
7. Save

Step 6: Create Workflow Rules

1. Setup > Automation > Workflow Rules
2. Klik "Create Rule"
3. Module: Leads
4. Rule name: "Auto-assign new leads"
5. Trigger: On create
6. Condition: Lead source = Website
7. Action: Assign to Sales Team A
8. Save dan activate

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

Step 7: Setup Email Marketing

1. Setup > Channels > Email

2. Connect email account
3. Configure SMTP settings
4. Test send
5. Create email template

Step 8: Customization

1. Setup > Customization > Modules & Fields
2. Pilih module: Contacts
3. Add custom field:
   - Field label: "Customer Segment"
   - Field type: Picklist
   - Values: Bronze, Silver, Gold
4. Save

Step 9: Reporting

1. Reports > Create Report
2. Pilih module: Contacts
3. Add columns: Name, Email, Segment, Last Activity
4. Set filter: Active customers only
5. Save report

Step 10: Mobile App

1. Download Zoho CRM app (iOS/Android)
2. Login dengan akun Anda
3. Sync contacts
4. Test features

Konfigurasi WhatsApp Business API

Untuk WhatsApp integration yang advanced, Anda butuh WhatsApp Business API.

Option 1: Via Fonnte (Indonesia)

1. Daftar di fonnte.com
2. Pilih paket: Starter (Rp 150K/bulan)
3. Verifikasi nomor WhatsApp
4. Scan QR code
5. Get API token
6. Integrate dengan CRM:
   - HubSpot: Via Zapier

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

- Zoho: Via custom function

7. Test send message

Option 2: Via Wablas

1. Daftar di wablas.com
2. Pilih paket: Basic (Rp 100K/bulan)
3. Verifikasi nomor
4. Get token
5. Integrate dengan CRM
6. Test

Option 3: Via Qontak (Official Meta Partner)

1. Daftar di qontak.com
2. Pilih paket: Starter (Rp 500K/bulan)
3. Verifikasi bisnis (butuh dokumen)
4. Setup WhatsApp Business Account
5. Integrate dengan CRM
6. Test

Template Konfigurasi

Gunakan template ini untuk dokumentasi konfigurasi Anda:

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

```
CRM Configuration Document
==========================

Company: [Nama Perusahaan]
Platform: [HubSpot / Zoho / Salesforce]
Date: [Tanggal setup]

Users:
- Admin: [Nama] ([Email])
- Sales: [Nama] ([Email])
- Marketing: [Nama] ([Email])

Integrations:
- Email: [Gmail / Outlook / Other]
- WhatsApp: [Fonnte / Wablas / Qontak]
- Other: [Zapier / Make / Custom]

Pipelines:
1. Sales Pipeline
   - Stage 1: Lead In
   - Stage 2: Contacted
   - Stage 3: Qualified
   - Stage 4: Proposal
   - Stage 5: Closed Won/Lost

Automations:
1. Auto-assign leads
2. Follow-up email after 3 days
3. Birthday greeting
4. Inactive customer re-engagement

Custom Properties:
- Customer Segment: Bronze, Silver, Gold
- Lead Source: Website, Instagram, Referral
- Purchase History: Total transactions, last purchase date

Reporting:
- Weekly sales report
- Monthly customer growth
- Campaign performance
```

Common Setup Issues

Issue 1: Import Gagal Penyebab: Format CSV salah, ada special characters Solusi: Clean data dulu, gunakan template CSV dari CRM

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 SNISHOP.COM - Semua Hak Dilindungi

Issue 2: WhatsApp Tidak Terhubung Penyebab: QR code expired, nomor tidak terdaftar WhatsApp Business Solusi: Generate QR baru, pastikan pakai WhatsApp Business

Issue 3: Automation Tidak Jalan Penyebab: Trigger condition salah, workflow tidak aktif Solusi: Review trigger, activate workflow, test dengan data dummy

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

Issue 4: Email Tidak Ter-track Penyebab: Integration belum complete, permission issue Solusi: Reconnect email, check permissions, test send

Issue 5: Data Duplikat Penyebab: Import berulang, tidak ada deduplication Solusi: Enable deduplication, clean data, merge duplicates

Best Practices Setup

Practice 1: Start Simple Jangan setup semua fitur sekaligus. Mulai dengan core:

1. Import contacts
2. Setup email integration
3. Create basic pipeline
4. Test dengan 1 user
5. Expand gradually

Practice 2: Document Everything Buat dokumentasi:

- Who does what
- How to use CRM
- Where to find data
- Who to contact for help

Practice 3: Regular Backup Export data setiap minggu:

1. Contacts > Export
2. Deals > Export
3. Activities > Export
4. Simpan di Google Drive atau Dropbox

Practice 4: Test Before Go Live Sebelum launch ke seluruh tim:

1. Test semua fitur
2. Import test data
3. Run automation
4. Check reporting
5. Fix issues

Practice 5: Train Your Team Training penting untuk adoption:

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

1. Buat video tutorial (5-10 menit)
2. Hold live training session
3. Provide cheat sheet
4. Assign CRM champion

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

5. Monitor usage

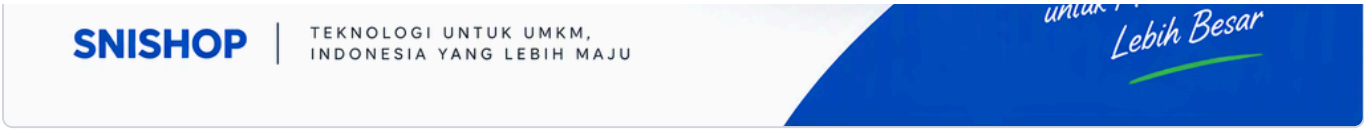
Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

BAGIAN 2: IMPLEMENTASI CRM

Bab 6: Manajemen Data Customer

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*



Mengapa Data Itu Penting?

Data adalah fondasi CRM. Tanpa data yang bersih dan terstruktur, CRM Anda tidak berguna.

Bayangkan:

- Customer data duplikat (sama orang, 3 record berbeda)
- Email salah ketik (budi@gmial.com bukan budi@gmail.com)
- Phone number tidak lengkap (0812... bukan +62 812...)
- Data outdated (customer sudah pindah kerja)

Akibatnya:

- Email campaign bounce
- WhatsApp message tidak terkirim
- Reporting tidak akurat
- Customer experience buruk

Struktur Data CRM

Core Objects:

Contact (Orang)

- First Name
- Last Name
- Email
- Phone
- WhatsApp
- Address
- Job Title
- Company
- Date of Birth
- Notes

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

Account (Perusahaan)

- Company Name
- Industry
- Size

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

- Website
- Phone
- Address
- Billing Info

Deal (Opportunity)

- Deal Name
- Stage
- Value
- Close Date
- Probability
- Contact
- Account

Activity (Interaksi)

- Type: Call, Email, Meeting, WhatsApp
- Date
- Subject
- Notes
- Contact
- Deal

Custom Objects: Buat sendiri sesuai kebutuhan:

- Product
- Order
- Invoice
- Ticket
- Project

Data Entry Best Practices

Practice 1: Standardize Format

Email:

- Lowercase semua
- Format: nama@domain.com
- Validasi dengan regex

Phone:

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

- Format internasional: +62 812-3456-7890
- Strip spasi dan tanda baca
- Validasi panjang (10-15 digit)

Name:

- Capitalize first letter
- Format: First Last
- Strip special characters

Date:

- Format: YYYY-MM-DD
- Timezone: Asia/Jakarta (WIB)

Practice 2: Required Fields

Tentukan field yang wajib diisi:

- Contact: Email atau Phone (minimal satu)
- Deal: Name, Stage, Value
- Activity: Type, Date, Contact

Tanpa field ini, data tidak bisa di-save.

Practice 3: Validation Rules

Setup rules untuk prevent bad data:

Contoh:

- Email harus mengandung "@"
- Phone harus angka semua
- Deal value harus > 0
- Close date harus > today

Practice 4: Deduplication

Enable auto-deduplication:

- Match by email
- Match by phone
- Match by name + company

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

Jika duplicate found:

- Merge automatically atau
- Flag for manual review

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

Practice 5: Regular Cleanup

Jadwalkan data cleanup:

- Weekly: Check new entries
- Monthly: Update outdated data
- Quarterly: Deep clean (merge duplicates, delete invalid)

Data Enrichment

Data enrichment adalah proses melengkapi data dengan informasi tambahan.

Sources:

1. Social Media

- LinkedIn: Job title, company, industry
- Instagram: Interest, lifestyle
- Facebook: Demographics

2. Website Analytics

- Pages visited
- Time on site
- Download history

3. Email Engagement

- Open rate
- Click rate
- Reply rate

4. Transaction History

- Purchase frequency
- Average order value
- Last purchase date

5. Survey dan Feedback

- NPS score
- Customer satisfaction
- Preferences

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

Tools untuk Enrichment:

Gratis:

- Google search (manual)

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

- Social media lookup
- Website analytics

Berbayar:

- Clearbit (automated enrichment)
- ZoomInfo (B2B data)
- Lusha (contact info)

Contoh Enrichment:

Before:

- Name: Budi
- Email: budi@email.com
- Phone: 0812-3456-7890

After:

- Name: Budi Santoso
- Email: budi@email.com
- Phone: +62 812-3456-7890
- Company: PT Maju Jaya
- Job Title: Marketing Manager
- Industry: Retail
- LinkedIn: linkedin.com/in/budisantoso
- Last Purchase: 2026-01-15
- Total Spend: Rp 5.000.000

Data Segmentation

Segmentasi adalah mengelompokkan customer berdasarkan karakteristik tertentu.

Segmentation Criteria:

1. Demographics

- Age
- Gender
- Location
- Income
- Education

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

2. Firmographics (B2B)

- Company size

- Industry
- Revenue
- Location

3. Behavior

- Purchase history
- Website activity
- Email engagement
- Product usage

4. Psychographics

- Interests
- Values
- Lifestyle
- Personality

5. Customer Lifecycle

- New lead
- First-time buyer
- Repeat customer
- Loyal customer
- Churned customer

Contoh Segmentasi:

Segment 1: VIP Customers

- Criteria: Total purchase > Rp 10 juta
- Action: Exclusive offers, priority support

Segment 2: At-Risk Customers

- Criteria: No purchase in 6 months
- Action: Re-engagement campaign, survey

Segment 3: New Leads

- Criteria: Created in last 30 days, no purchase
- Action: Welcome series, product education

Segment 4: Frequent Buyers

- Criteria: Purchase > 5 times in last year
- Action: Loyalty program, referral request

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

Data Migration

Jika pindah dari sistem lama ke CRM baru, Anda perlu migrasi data.

Steps:

Step 1: Audit Data Lama

- Berapa banyak records?
- Apa saja fields?
- Mana yang masih relevan?
- Mana yang perlu dibersihkan?

Step 2: Clean Data

- Remove duplicates
- Fix invalid emails
- Standardize formats
- Update outdated info

Step 3: Map Fields

- Old field → New field
- Example: "Customer Name" → "Contact Name"
- Example: "Phone Number" → "Mobile Phone"

Step 4: Test Migration

- Migrate small batch (100 records)
- Check accuracy
- Verify integrations
- Test reporting

Step 5: Full Migration

- Backup old data
- Migrate all records
- Validate completeness
- Check for errors

Step 6: Post-Migration

- Train users on new system
- Monitor data quality
- Fix issues immediately
- Decommission old system

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

Data Security

Data customer adalah aset berharga. Anda harus menjaganya.

Best Practices:

1. Access Control

- Role-based access: Admin, Manager, Staff
- Field-level security: Hide sensitive data
- IP restrictions: Only allow office network
- 2FA: Wajib untuk semua users

2. Encryption

- Data at rest: Encrypt database
- Data in transit: Use HTTPS/SSL
- Email encryption: For sensitive communications

3. Backup

- Daily automated backup
- Weekly manual export
- Store in multiple locations
- Test restore quarterly

4. Compliance

- GDPR (jika ada customer EU)
- UU PDP Indonesia (Perlindungan Data Pribadi)
- Industry-specific regulations

5. Audit Trail

- Log all data changes
- Track who accessed what
- Monitor suspicious activity
- Review audit logs monthly

KPI Data Quality

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

Ukur kualitas data Anda:

Metric 1: Completeness

- % records with all required fields
- Target: > 95%

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

Metric 2: Accuracy

- % records with valid data
- Target: > 98%

Metric 3: Uniqueness

- % records without duplicates
- Target: > 99%

Metric 4: Timeliness

- % records updated in last 6 months
- Target: > 90%

Metric 5: Consistency

- % records following standard format
- Target: > 95%

Bab 7: Segmentasi dan Targeting

Apa Itu Segmentasi?

Segmentasi adalah proses membagi customer base Anda menjadi kelompok-kelompok kecil berdasarkan karakteristik yang sama.

Mengapa penting?

Karena tidak semua customer sama. Mereka punya:

- Kebutuhan berbeda
- Preferensi berbeda
- Behavior berbeda
- Value berbeda

Dengan segmentasi, Anda bisa:

- Kirim message yang relevan
- Tawarkan produk yang tepat
- Allocate resources efisien
- Tingkatkan conversion rate

RFM Analysis

RFM (Recency, Frequency, Monetary) adalah framework segmentasi klasik.

Recency (R): Seberapa baru terakhir beli?

- 5: Beli dalam 7 hari terakhir
- 4: Beli 8-30 hari lalu
- 3: Beli 31-90 hari lalu
- 2: Beli 91-180 hari lalu
- 1: Beli > 180 hari lalu

Frequency (F): Seberapa sering beli?

- 5: > 10 kali beli
- 4: 6-10 kali beli
- 3: 3-5 kali beli
- 2: 2 kali beli
- 1: 1 kali beli

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

Monetary (M): Berapa total spend?

- 5: > Rp 10 juta
- 4: Rp 5-10 juta
- 3: Rp 2-5 juta

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

- 2: Rp 500K-2 juta
- 1: < Rp 500K

Contoh Segmentasi RFM:

Segment: Champions

- R: 5, F: 5, M: 5
- Characteristics: Baru beli, sering beli, spend besar
- Action: Exclusive rewards, VIP treatment, referral program

Segment: Loyal Customers

- R: 4-5, F: 4-5, M: 3-4
- Characteristics: Sering beli, loyal
- Action: Upsell, cross-sell, loyalty program

Segment: Potential Loyalists

- R: 4-5, F: 2-3, M: 2-3
- Characteristics: Baru mulai sering beli
- Action: Nurture, education, incentives

Segment: At-Risk

- R: 1-2, F: 3-4, M: 3-4
- Characteristics: Dulu sering beli, sekarang jarang
- Action: Re-engagement campaign, survey, special offer

Segment: Lost

- R: 1, F: 1, M: 1
- Characteristics: Sudah lama tidak beli
- Action: Win-back campaign, feedback request

Customer Lifetime Value (CLV)

CLV adalah total revenue yang Anda harapkan dari satu customer selama mereka berbisnis dengan Anda.

Formula Sederhana:

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

CLV = Average Order Value × Purchase Frequency × Customer Lifespan

Contoh:

Kopi Nusantara:

- Average Order Value: Rp 50.000

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

- Purchase Frequency: 2x per bulan
- Customer Lifespan: 3 tahun

CLV = Rp 50.000 × 2 × 12 × 3 = Rp 3.600.000

Artinya, satu customer loyal bernilai Rp 3,6 juta untuk bisnis Anda.

Menghitung CLV di CRM:

HubSpot:

1. Reports > Create Custom Report
2. Add properties: Contact, Deal Value, Close Date
3. Filter: Closed Won deals
4. Group by: Contact
5. Calculate: Sum of deal values per contact
6. Save as "Customer Lifetime Value"

Zoho CRM:

1. Analytics > Custom Report
2. Module: Contacts
3. Columns: Contact Name, Sum of Deal Amount
4. Group by: Contact Name
5. Filter: Deal Stage = Closed Won
6. Save report

Interpretasi CLV:

High CLV (> Rp 5 juta):

- VIP customers
- Prioritize retention
- Exclusive offers
- Personal account manager

Medium CLV (Rp 1-5 juta):

- Loyal customers
- Nurture relationship
- Upsell opportunities
- Loyalty program

Low CLV (< Rp 1 juta):

- New or occasional customers

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

- Increase engagement
- Education campaigns
- Incentivize repeat purchase

Behavioral Segmentation

Segmentasi berdasarkan behavior customer.

Criteria:

1. Purchase Behavior

- First-time buyer
- Repeat buyer
- High-value buyer
- Discount seeker
- Seasonal buyer

2. Website Behavior

- Pages visited
- Time on site
- Download history
- Cart abandonment
- Search queries

3. Email Behavior

- Open rate
- Click rate
- Unsubscribe rate
- Reply rate
- Forward rate

4. Social Media Behavior

- Engagement rate
- Share rate
- Comment frequency
- DM interactions

5. Product Usage

- Feature adoption
- Login frequency

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

- Session duration
- Support tickets

Contoh Implementasi:

Segment: Cart Abandoners

- Behavior: Add to cart but no purchase
- Action: Send reminder email, offer discount

Segment: Email Engagers

- Behavior: Open rate > 50%, click rate > 10%
- Action: Send more emails, ask for referral

Segment: Social Media Fans

- Behavior: Like, comment, share posts
- Action: User-generated content campaign, feature them

Segment: Power Users

- Behavior: Login daily, use all features
- Action: Ask for review, create case study

Geographic Segmentation

Segmentasi berdasarkan lokasi.

Criteria:

- Country
- Province/State
- City
- Postal code
- Climate zone
- Urban/rural

Contoh:

Segment: Jakarta

- Characteristics: Urban, busy, high income
- Action: Fast delivery, premium products

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

Segment: Yogyakarta

- Characteristics: Student city, cultural, budget-conscious
- Action: Student discount, cultural themes

Segment: Bali

- Characteristics: Tourist, expat, leisure
- Action: English content, tourist packages

Demographic Segmentation

Segmentasi berdasarkan data demografis.

Criteria:

- Age
- Gender
- Income
- Education
- Occupation
- Marital status
- Family size

Contoh:

Segment: Mahasiswa

- Age: 18-24
- Income: Low
- Action: Student discount, payment installment

Segment: Professional

- Age: 25-40
- Income: Medium-high
- Action: Premium products, time-saving features

Segment: Ibu Rumah Tangga

- Age: 28-45
- Occupation: Homemaker
- Action: Family bundles, convenience focus

Psychographic Segmentation

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

Segmentasi berdasarkan psikologis.

Criteria:

- Interests
- Hobbies

- Values
- Lifestyle
- Personality
- Attitudes

Contoh:

Segment: Health Conscious

- Values: Healthy living, organic
- Interests: Fitness, nutrition
- Action: Promote healthy products, wellness content

Segment: Tech Enthusiasts

- Values: Innovation, efficiency
- Interests: Gadgets, apps
- Action: Early access, tech features

Segment: Eco-Friendly

- Values: Sustainability, environment
- Interests: Green living, recycling
- Action: Eco products, carbon-neutral shipping

Targeting Strategies

Setelah segmentasi, pilih target.

Strategy 1: Undifferentiated Targeting

- Satu message untuk semua segments
- Pros: Simple, cost-effective
- Cons: Less relevant, lower conversion
- Use when: Product universal, budget limited

Strategy 2: Differentiated Targeting

- Different message untuk setiap segment
- Pros: More relevant, higher conversion
- Cons: Complex, expensive
- Use when: Multiple segments, budget available

Strategy 3: Concentrated Targeting

- Fokus pada satu segment saja

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

- Pros: Deep understanding, strong position
- Cons: High risk if segment shrinks
- Use when: Niche market, limited resources

Strategy 4: Micromarketing

- Hyper-personalized untuk individual
- Pros: Maximum relevance, loyalty
- Cons: Very complex, expensive
- Use when: High-value customers, B2B

Implementasi di CRM

HubSpot:

1. Contacts > Lists
2. Create list: "VIP Customers"
3. Add filters:
   - CLV > Rp 5 juta
   - Last purchase < 30 days
4. Save list
5. Use for targeted campaigns

Zoho CRM:

1. Contacts > Custom Views
2. Create view: "At-Risk Customers"
3. Add criteria:
   - Last activity > 90 days
   - Open deals = 0
4. Save view
5. Assign to sales rep for follow-up

Measuring Success

KPI untuk segmentasi:

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

Metric 1: Segment Size

- Berapa banyak customer per segment?
- Target: Balanced distribution

Metric 2: Conversion Rate per Segment

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

- Berapa % yang convert?
- Target: Higher than average

Metric 3: Revenue per Segment

- Berapa revenue dari setiap segment?
- Target: 80/20 rule (20% segments = 80% revenue)

Metric 4: Retention Rate per Segment

- Berapa % yang stay?
- Target: > 70% for VIP segments

Metric 5: Campaign Performance

- Open rate, click rate, conversion per segment
- Target: Higher engagement than generic campaigns

Deterministic

You choose the tools and steps. Every step follows fixed rules and runs the same way every time.

Deterministic + AI

AI handles a single task in a workflow, like writing or summarizing. Deterministic steps handle the rest.

Deterministic + agent

An embedded agent uses approved tools and instructions to complete multi-step work, then hands it off to deterministic steps.

Fully agentic

An agent plans, adapts, and works across tools to achieve your goal, bringing you in for review as needed.

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

Deterministic: *Ticket intake*

You set the steps. Every ticket gets an auto-reply and goes to a rep, the same way every time.

Apa Itu Marketing Automation?

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 SNISHOP.COM - All Rights Reserved

Marketing automation adalah penggunaan software untuk mengotomatisasi tugas-tugas marketing yang repetitif.

Contoh:

- Kirim email welcome otomatis saat ada lead baru

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

- Follow-up WhatsApp jika customer tidak respon 3 hari
- Post Instagram terjadwal
- Segmentasi customer berdasarkan behavior
- Lead scoring otomatis

Mengapa Automasi Penting?

Benefit 1: Efisiensi Waktu Tim marketing bisa fokus pada strategi, bukan tugas manual.

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

Contoh:

- Manual: Kirim 100 email = 2 jam
- Automated: Kirim 100 email = 5 menit setup

Benefit 2: Konsistensi Message terkirim tepat waktu, tidak terlewat.

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

Contoh:

- Lead baru selalu dapat welcome email dalam 5 menit
- Customer selalu dapat follow-up hari ke-3, ke-7, ke-14

Benefit 3: Personalization at Scale Kirim message personal ke ribuan customer sekaligus.

Contoh:

- Email: "Halo Budi, kami lihat Anda tertarik dengan produk X..."
- WhatsApp: "Budi, ada promo khusus untuk Anda!"

Benefit 4: Better Lead Management Lead di-nurture otomatis sampai siap beli.

Contoh:

- Lead score < 20: Education content
- Lead score 20-50: Product demo
- Lead score > 50: Sales call

Benefit 5: Measurable Results Track semua metrics, optimize berdasarkan data.

Contoh:

- Email open rate: 25% → 35% setelah A/B test
- Conversion rate: 2% → 4% setelah automation

Types of Marketing Automation

Type 1: Email Automation

Welcome Series:

- Email 1 (Day 0): Welcome + brand story
- Email 2 (Day 2): Top products + social proof
- Email 3 (Day 5): Special offer + urgency
- Email 4 (Day 10): Customer testimonials
- Email 5 (Day 14): Last chance reminder

Abandoned Cart:

- Email 1 (Hour 1): Reminder + cart link
- Email 2 (Hour 24): Incentive (free shipping)
- Email 3 (Hour 48): Urgency (stock limited)

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

Re-engagement:

- Email 1 (Day 90): "We miss you" + offer
- Email 2 (Day 120): New products + benefits

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

- Email 3 (Day 150): Last chance + survey

Birthday:

- Email (Birthday): Greeting + special discount

Type 2: WhatsApp Automation

Auto-Reply:

- Outside business hours: "Terima kasih sudah menghubungi kami. Kami akan balas besok jam 9 pagi."
- During hours: "Admin akan balas dalam 5 menit."

Broadcast:

- Weekly promo: "Promo minggu ini: Beli 2 gratis 1!"
- Event reminder: "Webinar besok jam 2 siang. Ini linknya: ..."

Follow-Up:

- After purchase: "Pesanan Anda sedang diproses. Estimasi sampai: 3 hari."
- After delivery: "Barang sudah sampai. Bagaimana? Puas?"

Type 3: Social Media Automation

Scheduling:

- Post Instagram 3x seminggu
- Tweet daily
- Facebook post 2x sehari

Engagement:

- Auto-like comments
- Auto-reply DM
- Auto-share user content

Type 4: Lead Nurturing

Lead Scoring:

- Visit website: +5 points
- Download ebook: +10 points
- Attend webinar: +20 points
- Request demo: +30 points
- Purchase: +50 points

Produk Digital Asli SNISHOP.COM

© 2026 Siraj Nur Ihrom - All Rights Reserved

Lead Routing:

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

- Score < 20: Marketing nurture
- Score 20-50: Sales development
- Score > 50: Sales close

Setting Up Automation di HubSpot

Step 1: Create Workflow

1. Automation > Workflows
2. Klik "Create workflow"
3. Choose type: Contact-based
4. Name: "Welcome Series"

Step 2: Set Enrollment Trigger

1. Klik "Set up triggers"
2. Choose trigger: "Form submission"
3. Select form: "Newsletter Signup"
4. Save

Step 3: Add Actions

1. Klik "+" untuk add action
2. Choose action: "Send email"
3. Select email template: "Welcome Email"
4. Set delay: "Wait 2 days"
5. Add next action: "Send email"
6. Select template: "Top Products"
7. Continue adding actions

Step 4: Set Goals

1. Klik "Set goal"
2. Choose goal: "Make a purchase"
3. Set timeframe: 30 days
4. Save

Step 5: Review dan Activate

1. Review workflow
2. Test dengan dummy contact
3. Click "Turn on"

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

Setting Up Automation di Zoho CRM

Step 1: Create Workflow Rule

1. Setup > Automation > Workflow Rules
2. Klik "Create Rule"
3. Module: Contacts
4. Rule Name: "Welcome Email"

Step 2: Set Trigger

1. Trigger: On Create
2. Condition: Lead Source = Website
3. Save

Step 3: Add Actions

1. Klik "Add Action"
2. Choose: "Send Email"
3. Select template: "Welcome"
4. To: Contact Email
5. Save

Step 4: Add Time-Based Actions

1. Klik "Add Time-based Action"
2. Time delay: 2 days
3. Action: Send Email
4. Template: "Top Products"
5. Save

Step 5: Activate

1. Review rule
2. Click "Activate"

Best Practices Automation

Practice 1: Start Simple Jangan automasi semua sekaligus. Mulai dengan:

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

1. Welcome email series
2. Abandoned cart reminder
3. Birthday greeting

Practice 2: Personalize Gunakan data customer:

- Nama depan
- Last purchase
- Preferences
- Behavior

Practice 3: Test Before Launch Always test:

- Send test email
- Check links
- Verify personalization
- Test on mobile

Practice 4: Monitor Performance Track metrics:

- Open rate
- Click rate
- Conversion rate
- Unsubscribe rate

Practice 5: Optimize Continuously A/B test:

- Subject lines
- Email content
- Send times
- CTAs

Common Automation Mistakes

Mistake 1: Over-Automation Terlalu banyak automated messages bikin customer annoyed.

Solusi:

- Limit frequency: Max 2 emails per week
- Provide opt-out: Unsubscribe link
- Monitor fatigue: Track unsubscribe rate

Mistake 2: No Personalization Generic messages tidak engage.

Solusi:

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

- Use customer name
- Reference past behavior
- Segment audiences

Mistake 3: Set and Forget Automation bukan autopilot. Perlu monitoring.

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

Solusi:

- Review weekly
- Update content monthly
- Optimize quarterly

Mistake 4: Ignoring Data Tidak track results = tidak tahu apa yang works.

Solusi:

- Set up analytics
- Track KPIs
- Report monthly

Mistake 5: Poor Timing Kirim email jam 2 pagi = tidak ada yang baca.

Solusi:

- Use send time optimization
- Test different times
- Consider time zones

ROI Automation

Example Calculation:

Before automation:

- Marketing staff: 2 orang
- Salary: Rp 5 juta/bulan per orang
- Total cost: Rp 10 juta/bulan
- Campaigns per month: 4
- Conversion rate: 2%

After automation:

- Marketing staff: 2 orang (same)
- Salary: Rp 5 juta/bulan per orang
- Automation tool: Rp 1 juta/bulan
- Total cost: Rp 11 juta/bulan
- Campaigns per month: 12 (3x increase)
- Conversion rate: 3% (50% increase)

Revenue impact:

- Before: Rp 100 juta/bulan

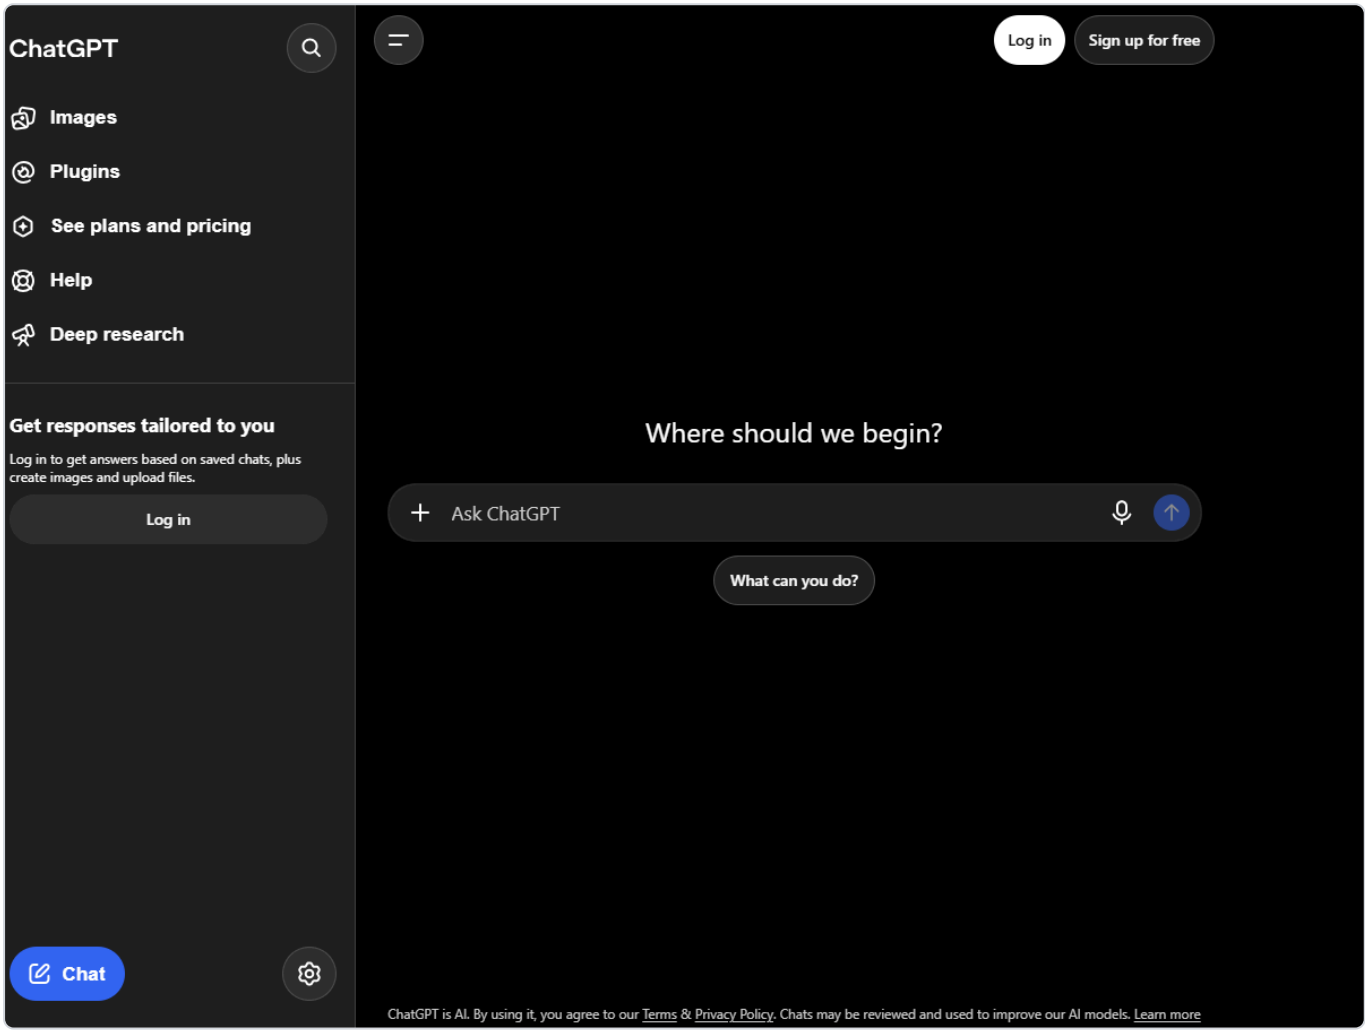
Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

- After: Rp 180 juta/bulan (80% increase)
- Net gain: Rp 80 juta - Rp 1 juta = Rp 79 juta/bulan

ROI: 7,900% (Rp 79 juta / Rp 1 juta x 100%)

Bab 9: Sales Pipeline Management



Apa Itu Sales Pipeline?

Sales pipeline adalah visualisasi tahap-tahap yang dilalui customer dari lead sampai closing.

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

Contoh pipeline:

1. Lead In (prospect baru)
2. Contacted (sudah dihubungi)
3. Qualified (memenuhi kriteria)
4. Proposal Sent (proposal terkirim)

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

5. Negotiation (sedang negosiasi)
6. Closed Won (deal berhasil)
7. Closed Lost (deal gagal)

Mengapa Pipeline Penting?

Benefit 1: Visibility Lihat dengan jelas di mana setiap deal berada.

Benefit 2: Forecasting Prediksi revenue bulan depan berdasarkan deals di pipeline.

Benefit 3: Process Standardization Semua sales rep follow same steps.

Benefit 4: Bottleneck Identification Tahu di mana deals sering stuck.

Benefit 5: Performance Tracking Ukur conversion rate per stage.

Designing Your Pipeline

Step 1: Define Stages

Contoh untuk B2B:

1. **Lead In**: Prospect baru masuk dari marketing
2. **Contacted**: Sales sudah telepon/email pertama kali
3. **Qualified**: Prospect memenuhi kriteria (budget, authority, need, timeline)
4. **Demo Scheduled**: Demo produk sudah dijadwalkan
5. **Proposal Sent**: Proposal dan pricing sudah dikirim
6. **Negotiation**: Sedang negosiasi terms
7. **Closed Won**: Deal berhasil, kontrak ditandatangani
8. **Closed Lost**: Deal gagal

Step 2: Set Entry Criteria

Setiap stage punya kriteria jelas:

Lead In → Contacted:

- Contact info verified
- Initial outreach made within 24 hours

Contacted → Qualified:

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

- BANT criteria met:
  - Budget: Ada budget untuk solusi
  - Authority: Decision maker teridentifikasi
  - Need: Punya masalah yang bisa kita solve
  - Timeline: Mau beli dalam 3-6 bulan

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

Qualified → Demo:

- Pain points documented
- Use cases identified
- Stakeholders mapped

Step 3: Define Exit Criteria

Kapan deal pindah ke stage berikutnya?

Example:

- Qualified → Demo: Prospect agrees to demo
- Demo → Proposal: Prospect requests pricing
- Proposal → Negotiation: Prospect counters offer

Step 4: Assign Probabilities

Setiap stage punya probability of closing:

Stage	Probability
Lead In	5%
Contacted	10%
Qualified	20%
Demo Scheduled	40%
Proposal Sent	60%
Negotiation	80%
Closed Won	100%

Step 5: Set Timeframes

Berapa lama deal seharusnya di setiap stage?

Example:

- Lead In → Contacted: Max 1 day
- Contacted → Qualified: Max 7 days
- Qualified → Demo: Max 14 days
- Demo → Proposal: Max 7 days
- Proposal → Negotiation: Max 14 days
- Negotiation → Closed: Max 30 days

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

Managing Pipeline di CRM

HubSpot:

Create Pipeline:

1. Settings > Objects > Deals > Pipelines
2. Klik "Create pipeline"
3. Name: "B2B Sales"
4. Add stages (lihat contoh di atas)
5. Save

Add Deal:

1. Contacts > Deals
2. Klik "Create deal"
3. Fill:
   - Deal name: "PT Maju Jaya - CRM Implementation"
   - Stage: "Qualified"
   - Amount: Rp 50.000.000
   - Close date: 2026-12-31
   - Contact: Budi Santoso
   - Company: PT Maju Jaya
4. Save

Move Deal:

1. Open deal
2. Change stage: "Qualified" → "Demo Scheduled"
3. Add note: "Demo scheduled for Oct 30, 2026"
4. Save

View Pipeline:

1. Sales > Deals
2. Pilih pipeline: "B2B Sales"
3. View: Board atau List
4. Filter by stage, owner, date

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

Zoho CRM:

Create Pipeline:

1. Setup > Customization > Modules > Deals > Pipelines

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

2. Klik "Create Pipeline"
3. Name: "B2B Sales"
4. Add stages
5. Save

Add Deal:

1. Tab: Deals
2. Klik "Create Deal"
3. Fill details
4. Save

Kanban View:

1. Deals > Kanban View
2. Drag and drop deals antar stages

Pipeline Metrics

Metric 1: Pipeline Value Total value semua deals di pipeline.

Formula: Sum of all deal amounts

Example:

- Stage 1: 10 deals x Rp 10 juta = Rp 100 juta
- Stage 2: 8 deals x Rp 15 juta = Rp 120 juta
- Stage 3: 5 deals x Rp 20 juta = Rp 100 juta
- Total pipeline value: Rp 320 juta

Metric 2: Weighted Pipeline Pipeline value adjusted by probability.

Formula: Sum of (deal amount x probability)

Example:

- Stage 1 (10%): Rp 100 juta x 10% = Rp 10 juta
- Stage 2 (20%): Rp 120 juta x 20% = Rp 24 juta
- Stage 3 (40%): Rp 100 juta x 40% = Rp 40 juta
- Weighted pipeline: Rp 74 juta

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© SNISHOP.COM - All Rights Reserved

Metric 3: Conversion Rate % deals yang move dari satu stage ke stage berikutnya.

Formula: (Deals moved / Total deals in stage) x 100%

Example:

- Stage 1: 100 deals

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

- Moved to Stage 2: 60 deals
- Conversion rate: 60%

Metric 4: Average Deal Size Rata-rata value per deal.

Formula: Total pipeline value / Number of deals

Metric 5: Sales Cycle Length Rata-rata waktu dari lead to close.

Formula: Sum of (close date - create date) / Number of deals

Metric 6: Win Rate % deals yang closed won.

Formula: (Closed won / Total closed) x 100%

Pipeline Management Best Practices

Practice 1: Regular Pipeline Review

Hold weekly pipeline review meeting:

- Agenda: Review all deals > Rp 10 juta
- Attendees: Sales team + manager
- Duration: 1 hour
- Frequency: Every Monday

Discussion points:

- Deals moved this week
- Deals stuck (no movement > 2 weeks)
- Deals at risk (close date passed)
- New deals added
- Forecast accuracy

Practice 2: Keep Pipeline Clean

Regular cleanup:

- Remove stale deals (> 90 days no activity)
- Update close dates (realistic)
- Remove duplicates
- Archive lost deals

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

Practice 3: Focus on High-Value Deals

Prioritize:

- Top 20% deals by value
- Deals with close date < 30 days

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

- Deals with high probability (> 60%)

Practice 4: Speed Matters

Response time:

- Lead → Contacted: < 24 hours
- Follow-up: < 48 hours
- Proposal: < 72 hours after demo

Practice 5: Use Data

Track metrics weekly:

- Pipeline value
- Conversion rates
- Win rate
- Sales cycle length

Sales Forecasting

Method 1: Pipeline-Based Forecast

Formula: Sum of (deal amount x probability)

Example:

- Deal A: Rp 50 juta x 80% = Rp 40 juta
- Deal B: Rp 30 juta x 60% = Rp 18 juta
- Deal C: Rp 20 juta x 40% = Rp 8 juta
- Forecast: Rp 66 juta

Method 2: Historical Forecast

Based on past performance:

- Last quarter revenue: Rp 200 juta
- Growth rate: 10%
- Next quarter forecast: Rp 220 juta

Method 3: Composite Forecast

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

Combine multiple methods:

- Pipeline forecast: Rp 66 juta
- Historical forecast: Rp 70 juta
- Sales rep estimate: Rp 68 juta
- Composite: (66 + 70 + 68) / 3 = Rp 68 juta

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

Pipeline Automation

Automation 1: Auto-Update Stage

Trigger: Activity completed Action: Move deal to next stage

Example:

- Trigger: Demo scheduled
- Action: Move from "Qualified" to "Demo Scheduled"

Automation 2: Stale Deal Alert

Trigger: No activity for 14 days Action: Notify sales rep

Example:

- Alert email: "Deal PT Maju Jaya hasn't been updated in 14 days"
- Task: "Follow up with Budi"

Automation 3: Close Date Reminder

Trigger: Close date = today + 7 days Action: Create task

Example:

- Task: "Follow up on proposal for PT Maju Jaya"
- Due date: Today + 7 days

Automation 4: Win Probability Adjustment

Trigger: Deal moves to next stage Action: Update probability

Example:

- Stage: "Proposal Sent"
- Probability: Auto-set to 60%

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi

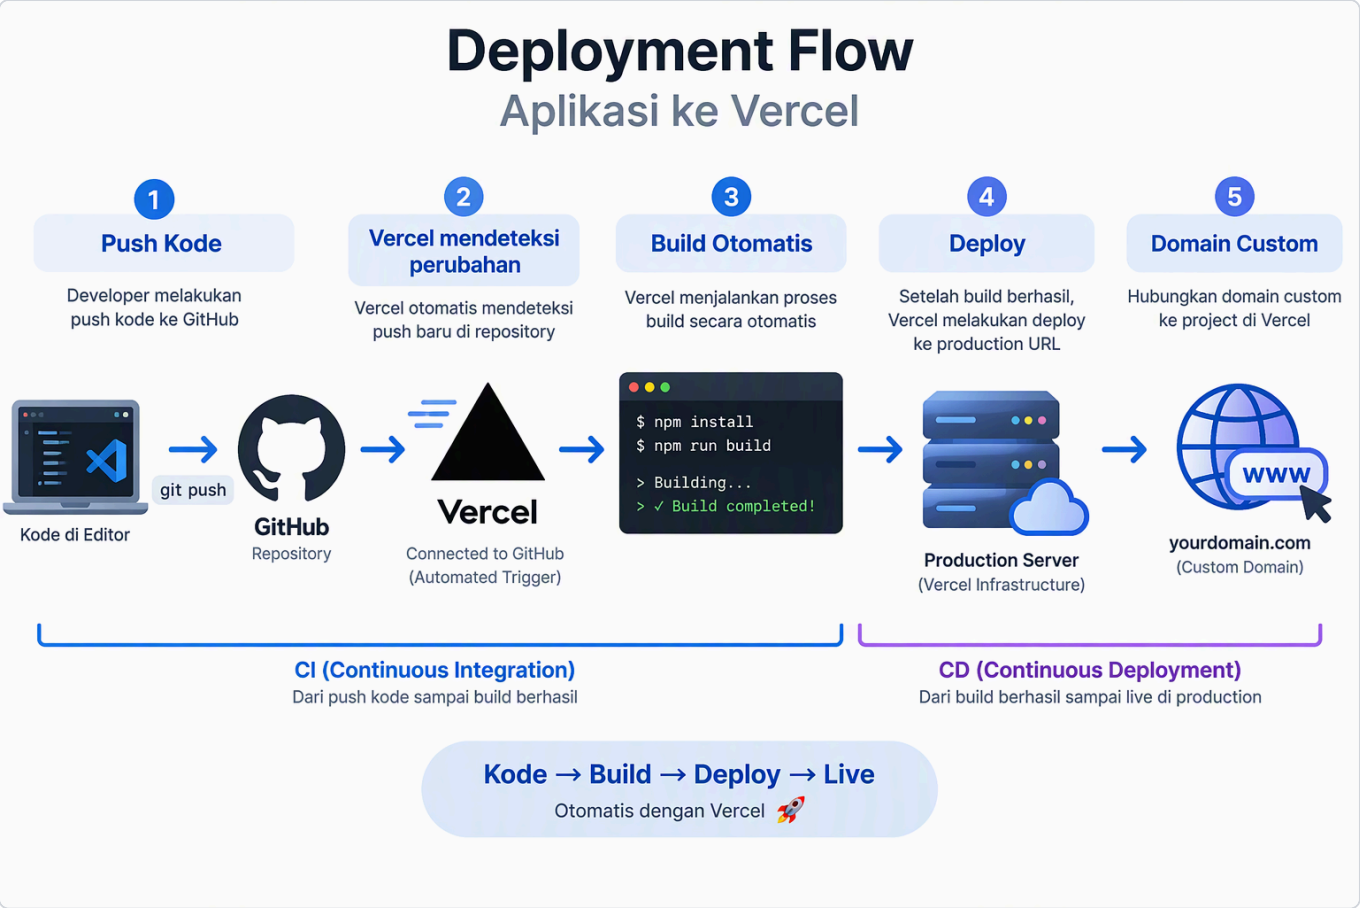
© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

Bab 10: Customer Service Excellence



Mengapa Customer Service Penting?

Customer service adalah ujung tombak relationship.

Data menunjukkan:

- 70% customer akan churn setelah pengalaman buruk
- 86% customer rela bayar lebih untuk pengalaman bagus
- Word-of-mouth dari customer puas = 2x lebih kuat dari negative experience

Types of Customer Service

Type 1: Reactive Service Customer datang dengan masalah, Anda solve.

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

Channels:

- Phone support
- Email support
- Live chat
- WhatsApp

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

- Social media DM

Type 2: Proactive Service Anda anticipate masalah sebelum customer complain.

Examples:

- Email notification: "Pesanan Anda akan sampai besok"
- WhatsApp: "Kami lihat ada issue di akun Anda, ini solusinya"
- Follow-up call: "Bagaimana produknya? Ada yang bisa kami bantu?"

Type 3: Self-Service Customer solve masalah sendiri dengan resources Anda.

Examples:

- FAQ page
- Knowledge base
- Video tutorials
- Community forum
- Chatbot

Setting Up Customer Service di CRM

HubSpot Service Hub:

Step 1: Create Ticket Pipeline

1. Settings > Objects > Tickets > Pipelines
2. Klik "Create pipeline"
3. Stages:
   - New (ticket baru masuk)
   - Active (sedang diproses)
   - Waiting on Customer (butuh info dari customer)
   - Waiting on Third Party (butuh vendor lain)
   - Solved (masalah selesai)
   - Closed (ticket ditutup)

Step 2: Configure Ticket Properties

1. Settings > Properties > Tickets
2. Add custom properties:
   - Priority: Low, Medium, High, Urgent
   - Category: Technical, Billing, General
   - Product: Product A, Product B, Product C
   - Source: Email, Phone, WhatsApp, Chat

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

Step 3: Setup Auto-Assignment

1. Automation > Workflows
2. Create workflow: "Assign tickets"
3. Trigger: Ticket created
4. Action: Assign to rep based on:
    - Category: Technical → Tech team
    - Billing → Finance team
    - General → Support team

Step 4: Create Response Templates

1. Sales > Templates
2. Klik "Create template"
3. Examples:
    - "Acknowledgment": "Terima kasih sudah menghubungi kami. Kami akan balas dalam 24 jam."
    - "Resolution": "Masalah Anda sudah kami selesaikan. Ini solusinya: ..."
    - "Follow-up": "Bagaimana solusinya? Ada yang bisa kami bantu lagi?"

Step 5: Setup SLA (Service Level Agreement)

1. Settings > SLAs
2. Create SLA:
    - Priority: High
    - First response time: 2 hours
    - Resolution time: 24 hours
3. Save

Step 6: Enable Customer Portal

1. Settings > Service Portal
2. Activate portal
3. Customize:
    - Logo
    - Colors
    - FAQ categories
4. Share link dengan customer

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

Customer Service Metrics

Metric 1: First Response Time (FRT) Waktu dari ticket dibuat sampai agent pertama kali respond.

Target: < 2 hours untuk high priority

Formula: Average(time of first response - time of ticket creation)

Metric 2: Resolution Time Waktu dari ticket dibuat sampai masalah solved.

Target: < 24 hours untuk high priority

Formula: Average(time of resolution - time of ticket creation)

Metric 3: Customer Satisfaction (CSAT) Rating kepuasan customer setelah ticket closed.

Survey question: "How satisfied are you with the service?" Scale: 1-5 (1 = very dissatisfied, 5 = very satisfied)

Formula: (Sum of ratings / Number of responses) x 20

Target: > 80%

Metric 4: Net Promoter Score (NPS) Likelihood customer recommend your service.

Survey question: "On a scale of 0-10, how likely are you to recommend us?"

Categories:

- Promoters (9-10): Loyal fans
- Passives (7-8): Satisfied but unenthusiastic
- Detractors (0-6): Unhappy customers

Formula: % Promoters - % Detractors

Target: > 50

Metric 5: First Contact Resolution (FCR) % tickets solved in first interaction.

Formula: (Tickets solved on first contact / Total tickets) x 100%

Target: > 70%

Metric 6: Ticket Volume Jumlah tickets per periode.

Track:

- Daily volume
- Weekly trend
- Peak hours
- Common categories

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

Best Practices Customer Service

Practice 1: Respond Fast Speed matters. Customer expect quick responses.

Targets:

- WhatsApp: < 5 minutes

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

- Live chat: < 2 minutes
- Email: < 2 hours
- Phone: < 3 rings

Practice 2: Be Empathetic Customer ingin didengar, bukan cuma di-solve.

Phrases:

- "Saya mengerti kekecewaan Anda"
- "Terima kasih sudah memberitahu kami"
- "Kami akan pastikan ini tidak terulang"

Practice 3: Personalize Gunakan nama, reference history.

Example:

- Bad: "Dear customer"
- Good: "Halo Budi, saya lihat Anda sudah berlangganan sejak 2024"

Practice 4: Follow Up Jangan tunggu customer complain lagi.

Example:

- Day 1: Solve problem
- Day 3: Follow-up email: "Bagaimana solusinya? Masih oke?"
- Day 7: Check-in: "Ada yang bisa kami bantu lagi?"

Practice 5: Document Everything Catat semua interactions di CRM.

Benefits:

- Next agent knows history
- Analytics lebih akurat
- Training material

Practice 6: Empower Agents Beri authority untuk solve problems.

Example:

- Agent boleh kasih diskon sampai 10% tanpa approval
- Agent boleh refund sampai Rp 500K
- Agent boleh upgrade service level

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi

Handling Difficult Situations

Situation 1: Angry Customer

Steps:

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

1. Listen: Biarkan mereka vent
2. Empathize: "Saya mengerti kekecewaan Anda"
3. Apologize: "Kami minta maaf atas ketidaknyamanan ini"
4. Solve: "Ini yang akan kami lakukan: ..."
5. Follow up: Pastikan mereka puas

Situation 2: Impossible Request

Example: Customer minta refund setelah 1 tahun.

Steps:

1. Acknowledge: "Saya mengerti Anda ingin refund"
2. Explain policy: "Kebijakan kami refund maksimal 30 hari"
3. Offer alternative: "Yang bisa kami lakukan adalah: ..."
4. Escalate: Jika tetap tidak puas, transfer ke supervisor

Situation 3: Technical Issue You Can't Solve

Steps:

1. Acknowledge: "Saya mengerti masalah Anda"
2. Escalate: "Saya akan transfer ke tim technical kami"
3. Follow up: "Tim technical akan hubungi Anda dalam 2 jam"
4. Track: Monitor sampai solved

Customer Service Automation

Automation 1: Auto-Acknowledgment Trigger: Ticket created Action: Send acknowledgment email

Template: "Terima kasih sudah menghubungi kami. Ticket Anda: #[TICKET_ID]. Kami akan balas dalam [SLA_TIME]."

Automation 2: Auto-Assignment Trigger: Ticket created Action: Assign to agent based on:

- Category
- Priority
- Agent workload

Automation 3: Auto-Escalation Trigger: Ticket unresolved for [X] hours Action: Escalate to supervisor

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

Example:

- High priority: Escalate after 4 hours
- Medium priority: Escalate after 8 hours
- Low priority: Escalate after 24 hours

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

Automation 4: Auto-Follow-Up Trigger: Ticket solved Action: Send follow-up email after 3 days

Template: "Halo [NAME], tiket Anda #[TICKET_ID] sudah kami solve. Bagaimana hasilnya? Ada yang bisa kami bantu lagi?"

Automation 5: Auto-Survey Trigger: Ticket closed Action: Send CSAT survey

Template: "Terima kasih sudah menghubungi kami. Mohon isi survey singkat ini: [LINK]"

Building a Customer-Centric Culture

Step 1: Hire for Empathy Customer service skills bisa diajarkan, empathy tidak.

Interview questions:

- "Ceritakan pengalaman Anda membantu orang lain"
- "Bagaimana Anda handle customer marah?"
- "Apa yang membuat Anda puas dalam pekerjaan?"

Step 2: Train Continuously Training topics:

- Product knowledge
- Communication skills
- Conflict resolution
- Empathy building
- Technical skills

Step 3: Reward Excellence Recognition programs:

- "Agent of the Month"
- Customer compliment shout-outs
- Performance bonuses

Step 4: Empower Decision-Making Give agents authority:

- Issue refunds (within limits)
- Offer discounts
- Make exceptions
- Solve problems on the spot

Step 5: Celebrate Success Share wins:

- Customer testimonials
- High CSAT scores
- Problem solved stories

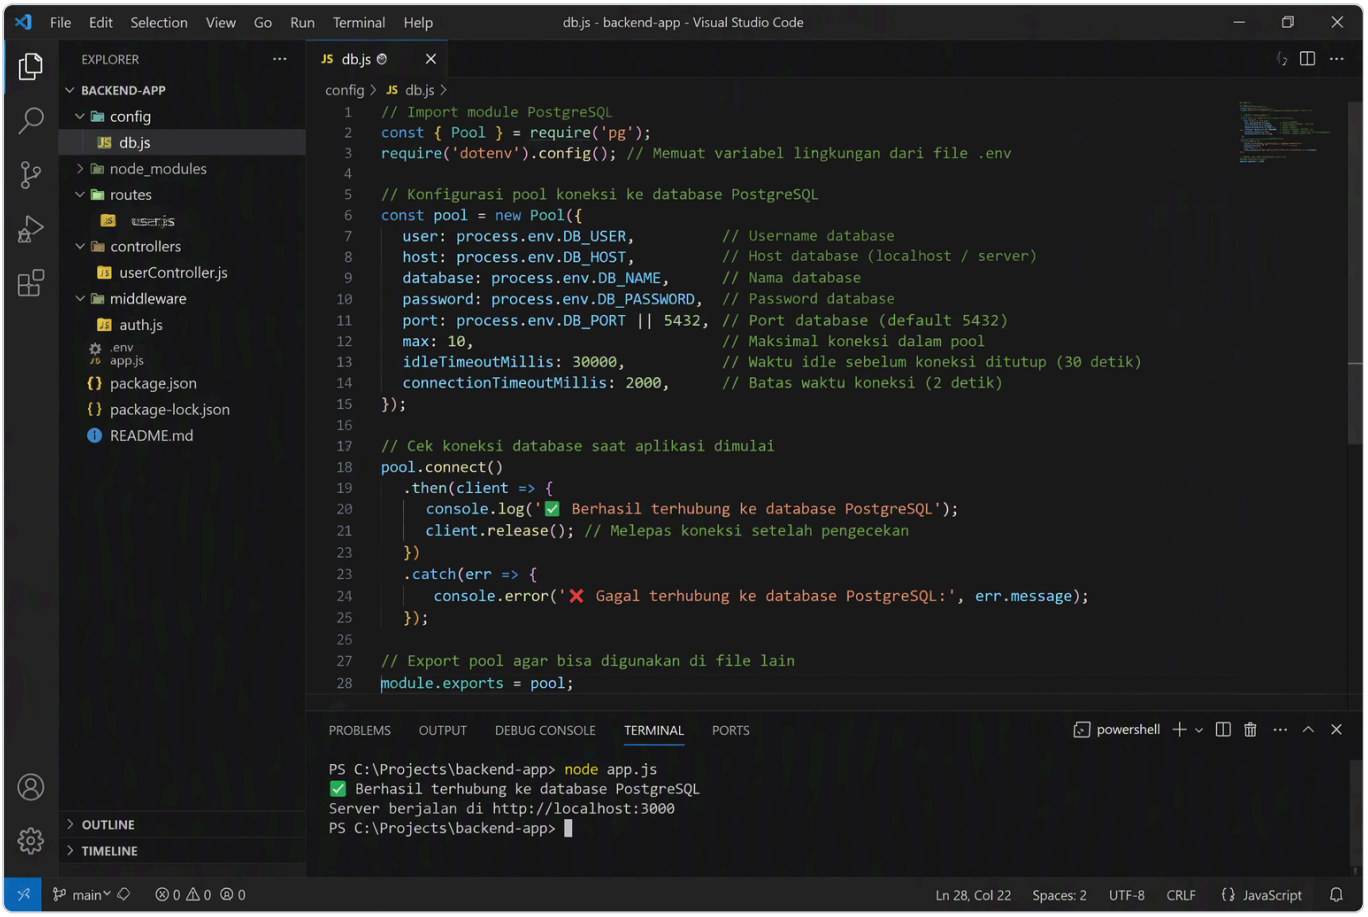
© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

Bab 11: Personalization dan Engagement



Apa Itu Personalization?

Personalization adalah menyesuaikan pengalaman customer berdasarkan data dan preferensi mereka.

Contoh:

- Email: "Halo Budi, kami lihat Anda suka kopi Arabica. Ini rekomendasi untuk Anda."
- Website: Show products based on browsing history
- Offers: Discount on birthday

Mengapa Personalization Penting?

Data menunjukkan:

- 80% customer lebih mungkin beli dari brand yang personalize experience
- 75% customer expect personalization
- Personalized emails deliver 6x higher transaction rates

Produk Digital Asli SNISHOP.COM
Dilarang Keras Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

Types of Personalization

Type 1: Content Personalization Sesuaikan konten berdasarkan interest.

Examples:

- Blog recommendations based on reading history
- Product recommendations based on past purchases
- Email content based on segment

Type 2: Product Personalization Rekomendasi produk berdasarkan behavior.

Examples:

- "Customers who bought X also bought Y"
- "Because you viewed X, you might like Y"
- "Complete the look" suggestions

Type 3: Pricing Personalization Offer different prices based on customer value.

Examples:

- VIP customers: Exclusive discounts
- New customers: Welcome offer
- At-risk customers: Retention offer

Type 4: Communication Personalization Sesuaikan cara komunikasi.

Examples:

- Preferred channel: WhatsApp vs Email
- Preferred time: Morning vs Evening
- Preferred language: Bahasa vs English

Implementing Personalization di CRM

Step 1: Collect Data

Data yang perlu dikumpulkan:

- Demographics: Name, age, location, job
- Behavior: Purchase history, browsing history, email engagement
- Preferences: Product preferences, communication preferences
- Feedback: Survey responses, reviews, NPS

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

Step 2: Segment Customers

Buat segments berdasarkan:

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

- Purchase behavior: High-value, frequent, occasional
- Engagement level: Active, passive, inactive
- Lifecycle stage: New, growing, mature, declining
- Preferences: Product categories, channels

Step 3: Create Personalization Rules

Example rules:

- IF customer bought product A, THEN recommend product B
- IF customer hasn't purchased in 90 days, THEN send re-engagement offer
- IF customer is VIP, THEN offer exclusive access

Step 4: Implement di CRM

HubSpot:

1. Contacts > Custom properties
2. Add: "Preferred channel", "Product interests", "Last purchase date"
3. Create lists based on these properties
4. Use lists for targeted campaigns

Zoho CRM:

1. Setup > Customization > Modules > Contacts
2. Add custom fields
3. Create custom views
4. Use views for segmentation

Step 5: Test dan Optimize

A/B test:

- Personalized vs generic email
- Different personalization approaches
- Timing dan frequency

Personalization Examples

Example 1: E-commerce

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

Scenario: Customer bought running shoes 3 months ago.

Personalization:

- Email: "Halo Budi, bagaimana sepatu larinya? Sudah saatnya ganti socks? Ini rekomendasi kami."
- Offer: 15% discount on running accessories

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

- Content: Blog post about running tips

Example 2: SaaS

Scenario: User logged in 5 times this week, using feature A heavily.

Personalization:

- In-app message: "We see you're using feature A a lot. Did you know feature B can help you even more?"
- Email: Tutorial video about feature B
- Offer: Upgrade to premium for advanced features

Example 3: Restaurant

Scenario: Customer orders vegetarian dishes every time.

Personalization:

- Email: "New vegetarian menu items this week!"
- Offer: Free dessert with vegetarian meal
- Content: Blog post about healthy eating

Engagement Strategies

Strategy 1: Welcome Series

Goal: Make new customers feel valued.

Sequence:

- Day 0: Welcome email + brand story
- Day 2: Top products + social proof
- Day 5: Special offer + urgency
- Day 10: Customer testimonials
- Day 14: Last chance reminder

Strategy 2: Re-engagement Campaign

Goal: Win back inactive customers.

Sequence:

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

- Day 90: "We miss you" + small offer
- Day 120: New products + benefits
- Day 150: Last chance + survey

Strategy 3: Loyalty Program

Goal: Reward repeat customers.

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

Structure:

- Bronze: 0-10 purchases, 5% discount
- Silver: 11-25 purchases, 10% discount + free shipping
- Gold: 26+ purchases, 15% discount + priority support + exclusive access

Strategy 4: Referral Program

Goal: Turn customers into advocates.

Offer:

- Referrer: Rp 50K voucher for each successful referral
- Referee: 10% discount on first purchase

Strategy 5: User-Generated Content

Goal: Build community dan social proof.

Campaign:

- Ask customers to share photos
- Repost on social media
- Feature on website
- Reward with discounts

Measuring Engagement

Metric 1: Email Engagement

- Open rate: % emails opened
- Click rate: % links clicked
- Reply rate: % responses received
- Unsubscribe rate: % opt-outs

Target:

- Open rate: > 25%
- Click rate: > 5%
- Unsubscribe rate: < 1%

Metric 2: Website Engagement

- Time on site: Average session duration
- Pages per session: Average pages viewed
- Bounce rate: % single-page sessions
- Return visitor rate: % repeat visitors

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

Target:

- Time on site: > 2 minutes
- Pages per session: > 3
- Bounce rate: < 50%

Metric 3: Social Media Engagement

- Likes, comments, shares
- Follower growth rate
- Engagement rate: (Interactions / Reach) x 100%

Target:

- Engagement rate: > 3%

Metric 4: Customer Activity

- Login frequency
- Feature usage
- Purchase frequency
- Support tickets

Target:

- Active users: > 60% of customer base

Best Practices

Practice 1: Start Small Jangan personalisasi semua sekaligus. Mulai dengan:

1. Name di email
2. Product recommendations
3. Birthday greetings

Practice 2: Use Data Wisely Personalization harus based on data, bukan asumsi.

Practice 3: Respect Privacy

- Be transparent about data collection
- Provide opt-out options
- Comply with regulations (GDPR, UU PDP)

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

Practice 4: Test dan Learn A/B test everything:

- Subject lines
- Content
- Offers

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

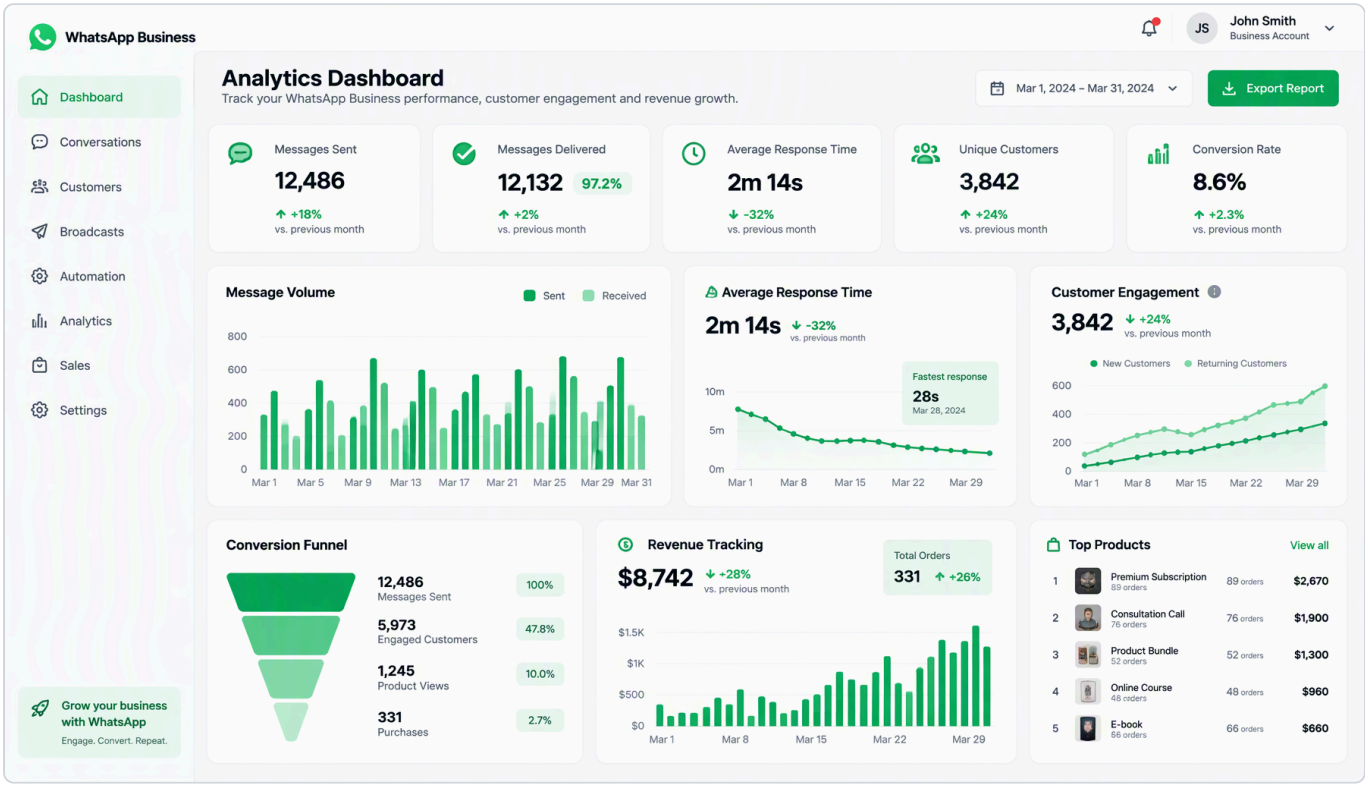
- Timing

Practice 5: Keep It Relevant Personalization harus add value, bukan creepy.

Example:

- Good: "Based on your purchase, you might like..."
- Bad: "We saw you browsing at 2 AM..."

Bab 12: Analytics dan Reporting



Mengapa Analytics Penting?

Without data, you're just another person with an opinion.

Analytics membantu Anda:

- Track performance
- Identify trends
- Make data-driven decisions
- Prove ROI
- Optimize strategies

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

Types of CRM Analytics

Type 1: Descriptive Analytics What happened?

Examples:

- Total sales last month
- Number of new customers
- Average deal size

Type 2: Diagnostic Analytics Why did it happen?

Examples:

- Why did sales drop in Q2?
- Why is churn rate increasing?
- Why are some deals stuck?

Type 3: Predictive Analytics What will happen?

Examples:

- Forecast next quarter revenue
- Predict which leads will convert
- Identify at-risk customers

Type 4: Prescriptive Analytics What should we do?

Examples:

- Recommend next best action
- Suggest optimal pricing
- Propose resource allocation

Key CRM Metrics

Sales Metrics:

1. Revenue Total sales in period.

Formula: Sum of all closed-won deals

Target: Month-over-month growth > 10%

2. Sales Cycle Length Average time from lead to close.

Formula: Average(close date - lead creation date)

Target: < 30 days for SMB, < 90 days for enterprise

3. Win Rate % deals closed won.

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

Formula: (Closed won / Total closed) x 100%

Target: > 25%

4. Average Deal Size Average value per deal.

Formula: Total revenue / Number of deals

Target: Increasing over time

5. Pipeline Velocity How fast deals move through pipeline.

Formula: (Number of opportunities x Average deal value x Win rate) / Sales cycle length

Marketing Metrics:

1. Lead Generation Rate % visitors who become leads.

Formula: (New leads / Website visitors) x 100%

Target: > 5%

2. Cost per Lead (CPL) How much you spend to acquire one lead.

Formula: Total marketing spend / Number of leads

Target: Decreasing over time

3. Lead-to-Customer Rate % leads who become customers.

Formula: (New customers / New leads) x 100%

Target: > 10%

4. Marketing ROI Return on marketing investment.

Formula: (Revenue from marketing - Marketing cost) / Marketing cost x 100%

Target: > 300%

Customer Service Metrics:

1. First Response Time Time to first response.

Target: < 2 hours

2. Resolution Time Time to resolve issue.

Target: < 24 hours

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

3. Customer Satisfaction (CSAT) Customer satisfaction score.

Target: > 80%

4. Net Promoter Score (NPS) Likelihood to recommend.

Target: > 50

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

Customer Success Metrics:

1. Customer Lifetime Value (CLV) Total revenue from customer over lifetime.

Formula: Average order value x Purchase frequency x Customer lifespan

Target: Increasing over time

2. Churn Rate % customers who stop buying.

Formula: (Lost customers / Total customers) x 100%

Target: < 5% annually

3. Retention Rate % customers who stay.

Formula: 100% - Churn rate

Target: > 95%

4. Expansion Revenue Additional revenue from existing customers.

Formula: Revenue from upsells + cross-sells

Target: > 20% of total revenue

Creating Reports di CRM

HubSpot:

Step 1: Create Report

1. Reports > Create report
2. Choose data source: Contacts, Deals, Tickets
3. Select properties: Name, Email, Deal value, Stage
4. Set filters: Date range, segment
5. Choose visualization: Table, chart, graph
6. Save report

Step 2: Customize Dashboard

1. Reports > Dashboards
2. Create new dashboard
3. Add report blocks
4. Arrange layout
5. Share with team

Step 3: Schedule Reports

1. Open report

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

2. Click "Schedule"
3. Set frequency: Daily, weekly, monthly
4. Add recipients
5. Save

Zoho CRM:

Step 1: Create Report

1. Reports > Create Report
2. Choose module: Leads, Contacts, Deals
3. Select columns
4. Set criteria
5. Choose chart type
6. Save

Step 2: Create Dashboard

1. Reports > Dashboards
2. Create dashboard
3. Add components
4. Customize layout
5. Share

Step 3: Schedule Reports

1. Open report
2. Click "Schedule Report"
3. Set frequency
4. Add recipients
5. Save

Advanced Analytics

Cohort Analysis

Group customers by acquisition date and track behavior over time.

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

Example:

- Cohort A: Acquired in January
- Cohort B: Acquired in February
- Cohort C: Acquired in March

Track:

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

- Retention rate per cohort
- Revenue per cohort
- Churn rate per cohort

RFM Analysis

Segment customers by Recency, Frequency, Monetary value.

Example:

- Segment 1: High R, High F, High M = Champions
- Segment 2: Low R, High F, High M = At-Risk
- Segment 3: Low R, Low F, Low M = Lost

Predictive Analytics

Use machine learning to predict future behavior.

Examples:

- Lead scoring: Predict which leads will convert
- Churn prediction: Identify at-risk customers
- Revenue forecasting: Predict next quarter sales

Tools:

- HubSpot: Built-in predictive analytics (Enterprise)
- Zoho CRM: Zia AI (add-on)
- Salesforce: Einstein Analytics
- Custom: Python + scikit-learn

Data Visualization

Chart Types:

1. Line Chart Use for: Trends over time

Example: Monthly revenue trend

2. Bar Chart Use for: Comparisons

Example: Sales by product category

3. Pie Chart Use for: Composition

Example: Customer segments breakdown

4. Scatter Plot Use for: Correlations

Example: Deal size vs sales cycle length

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

5. Heat Map Use for: Patterns

Example: Website activity by day/hour

Tools:

- Built-in: HubSpot, Zoho, Salesforce
- External: Tableau, Power BI, Google Data Studio
- Custom: Python + matplotlib, R + ggplot2

Reporting Best Practices

Practice 1: Define KPIs First Sebelum buat report, tentukan:

- What metrics matter?
- Who is the audience?
- What decisions will be made?

Practice 2: Keep It Simple Jangan overload dengan data. Fokus pada:

- 3-5 key metrics per report
- Clear visualizations
- Actionable insights

Practice 3: Automate Jangan buat report manual. Use:

- Scheduled reports
- Dashboards
- Automated alerts

Practice 4: Review Regularly Schedule review meetings:

- Weekly: Sales pipeline review
- Monthly: Performance review
- Quarterly: Strategy review

Practice 5: Act on Data Data tanpa action = sampah. Selalu:

- Identify insights
- Propose actions
- Track results

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

Common Reporting Mistakes

Mistake 1: Vanity Metrics Tracking metrics that look good but don't matter.

Example:

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

- Vanity: Total social media followers
- Actionable: Engagement rate, conversion rate

Mistake 2: Data Overload Too much data, no insights.

Solution:

- Focus on 3-5 KPIs
- Use visualizations
- Provide context

Mistake 3: Ignoring Trends Looking at snapshots, not trends.

Solution:

- Track over time
- Compare periods
- Identify patterns

Mistake 4: No Context Numbers without explanation.

Solution:

- Add benchmarks
- Provide targets
- Explain variances

Mistake 5: Not Acting Creating reports but not using them.

Solution:

- Schedule reviews
- Assign owners
- Track actions

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

BAGIAN 3: OPTIMASI DAN SCALE

Bab 13: Integrasi dengan Tools Lain

Mengapa Integrasi Penting?

CRM tidak berdiri sendiri. Ia bagian dari ecosystem tools.

Integrasi yang baik:

- Eliminasi data entry manual
- Ensure data consistency
- Automate workflows
- Provide holistic view

Common Integrations

Integration 1: Email Marketing

Tools:

- Mailchimp
- SendGrid

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

- ActiveCampaign
- HubSpot Email

Benefits:

- Sync contacts
- Track email engagement
- Automate campaigns

Example workflow:

1. New lead enters CRM
2. Automatically added to email list
3. Receives welcome series
4. Engagement tracked in CRM

Integration 2: WhatsApp Business

Tools:

- Qontak
- Wablas
- Fonnte
- Twilio

Benefits:

- Send WhatsApp messages from CRM
- Track conversations
- Automate responses

Example workflow:

1. Customer sends WhatsApp
2. Message logged in CRM
3. Auto-reply sent
4. Agent follows up in CRM

Integration 3: E-commerce Platform

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

Tools:

- Shopify
- WooCommerce
- Magento
- Tokopedia

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

Benefits:

- Sync orders
- Track customer purchases
- Automate fulfillment

Example workflow:

1. Customer places order
2. Order synced to CRM
3. Customer profile updated
4. Follow-up email sent

Integration 4: Accounting Software

Tools:

- Xero
- QuickBooks
- Jurnal (Indonesia)
- Mekari

Benefits:

- Sync invoices
- Track payments
- Automate billing

Example workflow:

1. Deal closed in CRM
2. Invoice created in accounting
3. Payment tracked
4. Revenue reported

Integration 5: Project Management

Tools:

- Asana
- Trello
- Monday.com
- ClickUp

Benefits:

- Link deals to projects

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

- Track deliverables
- Manage resources

Example workflow:

1. Deal closed
2. Project created
3. Tasks assigned
4. Progress tracked

Integration 6: Customer Support

Tools:

- Zendesk
- Freshdesk
- Intercom
- Help Scout

Benefits:

- Sync tickets
- Track issues
- Measure satisfaction

Example workflow:

1. Customer submits ticket
2. Ticket created in support tool
3. Linked to CRM contact
4. Resolution tracked

Setting Up Integrations

HubSpot Integrations:

Email Marketing (Mailchimp):

1. Settings > Integrations
2. Search "Mailchimp"
3. Click "Connect"
4. Authorize
5. Map fields
6. Sync contacts

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

WhatsApp (Qontak):

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

1. Settings > Integrations
2. Search "WhatsApp"
3. Select "Qontak"
4. Connect account
5. Configure settings
6. Test

E-commerce (Shopify):

1. Settings > Integrations
2. Search "Shopify"
3. Click "Connect"
4. Authorize
5. Sync products
6. Map data

Zoho CRM Integrations:

Email Marketing (Mailchimp):

1. Setup > Marketplace > Integrations
2. Search "Mailchimp"
3. Click "Install"
4. Configure
5. Map fields
6. Sync

WhatsApp (Zoho sendiri):

1. Setup > Channels > WhatsApp
2. Connect
3. Verify
4. Configure
5. Test

E-commerce (Shopify):

1. Setup > Marketplace
2. Search "Shopify"
3. Install
4. Connect
5. Sync

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

Custom Integrations

Jika tidak ada native integration, build custom.

Option 1: Zapier

No-code automation platform.

Example:

1. Trigger: New contact in CRM
2. Action: Add to Mailchimp list
3. Action: Send welcome email

Steps:

1. Sign up Zapier
2. Create Zap
3. Choose trigger app (CRM)
4. Choose action app (Mailchimp)
5. Map fields
6. Test
7. Turn on

Option 2: Make (Integromat)

Visual automation platform.

Example:

1. Trigger: New deal in CRM
2. Filter: Deal value > Rp 10 juta
3. Action: Create project in Asana
4. Action: Notify team in Slack

Steps:

1. Sign up Make
2. Create scenario
3. Add modules
4. Configure
5. Test
6. Run

Option 3: Custom API

Build your own integration.

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

Example (Node.js):

```
// Sync CRM contacts to Mailchimp
const axios = require('axios');

async function syncContacts() {
  // Get contacts from CRM
  const contacts = await axios.get('https://api.crm.com/contacts');

  // Add to Mailchimp
  for (const contact of contacts.data) {
    await axios.post('https://api.mailchimp.com/lists/123/members', {
      email: contact.email,
      status: 'subscribed'
    });
  }
}

syncContacts();
```

Integration Best Practices

Practice 1: Map Data Carefully Ensure fields match:

- CRM "Email" = Mailchimp "Email Address"
- CRM "Phone" = WhatsApp "Phone Number"

Practice 2: Test Before Go Live Test with sample data:

- Create test contact
- Trigger integration
- Verify data synced correctly

Practice 3: Monitor Regularly Check integration health:

- Sync errors
- Data mismatches
- Failed automations

Practice 4: Document Everything Create integration documentation:

- What integrates with what
- Data flow diagrams
- Troubleshooting guide

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

Practice 5: Plan for Scale Consider:

- API rate limits
- Data volume

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

- Performance impact

Common Integration Issues

Issue 1: Data Sync Errors Symptoms:

- Contacts not syncing
- Duplicate records
- Missing data

Solutions:

- Check API credentials
- Verify field mappings
- Review error logs

Issue 2: Automation Failures Symptoms:

- Workflows not triggering
- Actions not executing
- Delays in processing

Solutions:

- Check trigger conditions
- Verify action configurations
- Test manually

Issue 3: Data Mismatches Symptoms:

- Inconsistent data across tools
- Wrong information displayed

Solutions:

- Standardize formats
- Implement validation rules
- Regular audits

Issue 4: Performance Issues Symptoms:

- Slow sync times
- API timeouts
- System lag

Solutions:

- Optimize queries

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

- Batch processing
- Upgrade plan

Integration ROI

Example calculation:

Before integration:

- Manual data entry: 2 hours/day
- Data errors: 10/day
- Missed follow-ups: 5/week

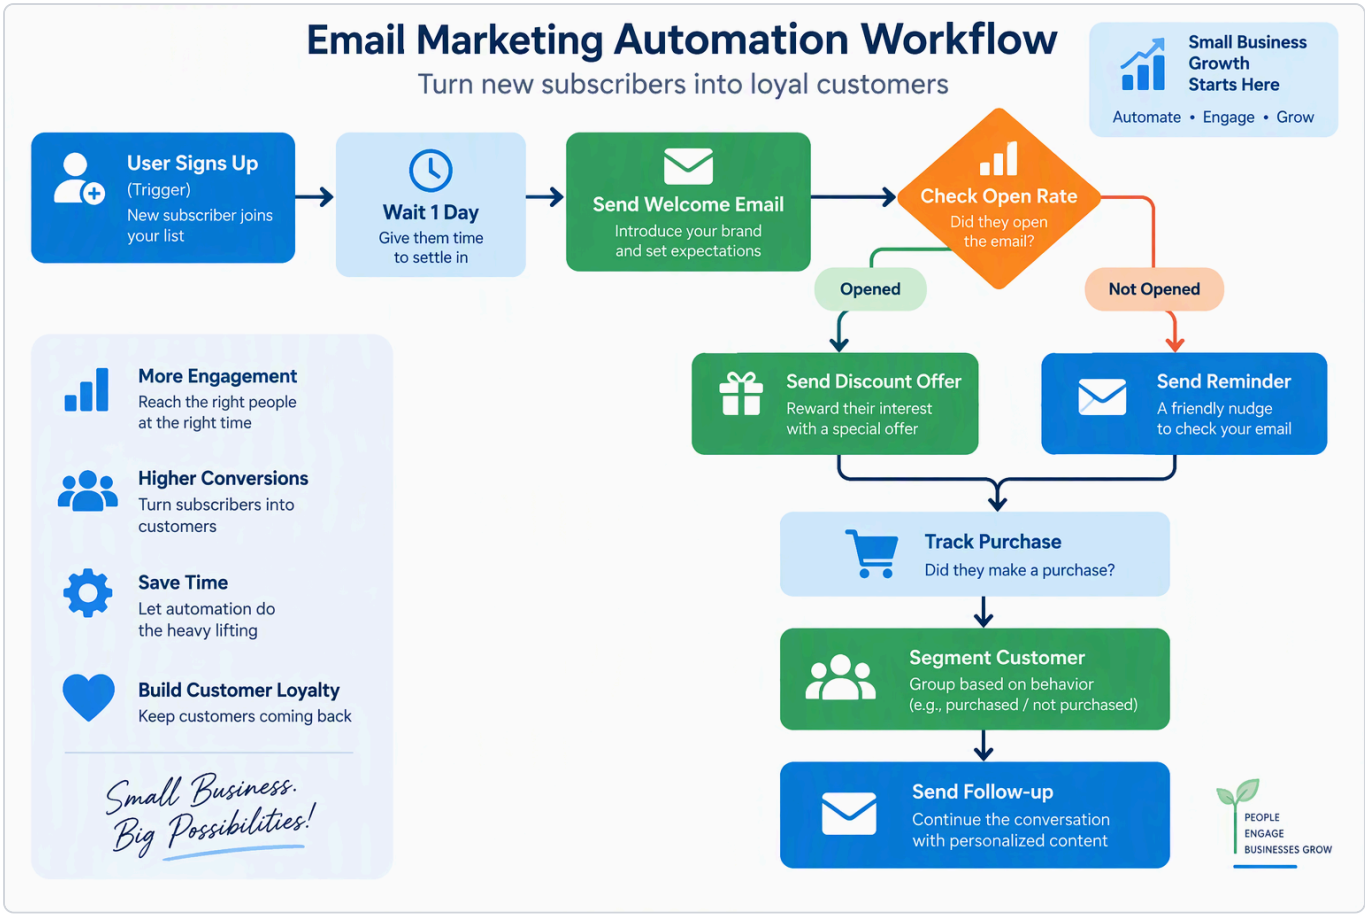
After integration:

- Manual data entry: 0 hours/day
- Data errors: 0/day
- Missed follow-ups: 0/week

Time saved: 2 hours/day x 250 days = 500 hours/year Cost savings: 500 hours x Rp 100K/hour = Rp 50 juta/year Integration cost: Rp 5 juta/year Net benefit: Rp 45 juta/year ROI: 900%

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

Bab 14: Best Practices dan Tips



CRM Implementation Best Practices

Practice 1: Start with Clear Goals

Sebelum implement CRM, define:

- What problems are you solving?
- What outcomes do you expect?
- How will you measure success?

Example goals:

- Increase sales conversion by 20% in 6 months
- Reduce customer churn by 15% in 1 year
- Improve response time to < 2 hours

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

Practice 2: Get Buy-In from Team

CRM adoption requires team commitment.

Steps:

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

1. Explain benefits to team
2. Involve them in selection
3. Provide training
4. Set expectations
5. Reward adoption

Practice 3: Clean Data First

Garbage in, garbage out.

Before migration:

- Remove duplicates
- Fix invalid emails
- Standardize formats
- Update outdated info

Practice 4: Start Simple

Don't implement everything at once.

Phase 1: Core features

- Contact management
- Deal tracking
- Basic reporting

Phase 2: Automation

- Email sequences
- Task reminders
- Lead scoring

Phase 3: Advanced

- Predictive analytics
- Custom integrations
- AI features

Practice 5: Train Continuously

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

Training is not one-time event.

Schedule:

- Week 1: Basic training
- Month 1: Advanced features
- Month 3: Best practices

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

- Month 6: Refresher

Practice 6: Monitor dan Optimize

CRM implementation is ongoing process.

Monthly review:

- User adoption rate
- Data quality
- Feature usage
- ROI metrics

Sales Team Best Practices

Practice 1: Update CRM Daily

Make CRM update part of daily routine.

Morning:

- Review today's tasks
- Check new leads
- Prioritize deals

During day:

- Log all activities
- Update deal stages
- Add notes

End of day:

- Review pipeline
- Plan tomorrow
- Update forecasts

Practice 2: Use Templates

Don't reinvent the wheel.

Templates to create:

- Email templates (intro, follow-up, proposal)
- Call scripts (cold call, discovery, closing)
- Meeting agendas (demo, review, planning)
- Proposal templates

Practice 3: Follow Up Consistently

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

Most sales happen after 5+ follow-ups.

Follow-up schedule:

- Day 1: Initial contact
- Day 3: First follow-up
- Day 7: Second follow-up
- Day 14: Third follow-up
- Day 30: Final follow-up

Practice 4: Qualify Leads

Don't waste time on bad leads.

BANT criteria:

- Budget: Can they afford?
- Authority: Are they decision maker?
- Need: Do they have problem you solve?
- Timeline: When will they buy?

Practice 5: Focus on Value

Sell outcomes, not features.

Example:

- Feature: "CRM has automation"
- Value: "Save 10 hours/week on manual tasks"

Customer Service Best Practices

Practice 1: Respond Fast

Speed matters.

Targets:

- WhatsApp: < 5 minutes
- Email: < 2 hours
- Phone: < 3 rings

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

Practice 2: Be Empathetic

Customer want to be heard.

Phrases:

- "I understand your frustration"

- "Thank you for bringing this to our attention"
- "Let me help you with that"

Practice 3: Personalize

Use customer data.

Example:

- Bad: "Dear customer"
- Good: "Hello Budi, I see you've been with us since 2024"

Practice 4: Follow Up

Don't wait for customer to come back.

Example:

- Day 1: Solve problem
- Day 3: Check if solution works
- Day 7: Ask if anything else needed

Practice 5: Document Everything

Record all interactions.

Benefits:

- Next agent knows history
- Analytics more accurate
- Training material

Marketing Team Best Practices

Practice 1: Segment Audiences

Don't send generic messages.

Segments:

- New leads: Welcome series
- Active customers: Upsell offers
- At-risk customers: Re-engagement
- VIP customers: Exclusive content

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

Practice 2: Personalize Content

Use customer data.

Examples:

- Name in subject line
- Product recommendations based on history
- Location-specific offers

Practice 3: Test Everything

A/B test all campaigns.

Test:

- Subject lines
- Email content
- Send times
- CTAs
- Offers

Practice 4: Track Metrics

Measure what matters.

Metrics:

- Open rate
- Click rate
- Conversion rate
- ROI

Practice 5: Automate Workflows

Save time with automation.

Examples:

- Welcome series
- Abandoned cart
- Birthday greetings
- Re-engagement campaigns

Data Management Best Practices

Practice 1: Standardize Formats

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

Consistency is key.

Standards:

- Email: lowercase
- Phone: +62 format

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

- Date: YYYY-MM-DD
- Name: First Last

Practice 2: Validate Data

Prevent bad data entry.

Validation rules:

- Email must contain @
- Phone must be numeric
- Date must be valid
- Required fields must be filled

Practice 3: Clean Regularly

Schedule data cleanup.

Frequency:

- Weekly: Check new entries
- Monthly: Update outdated data
- Quarterly: Deep clean

Practice 4: Backup Data

Protect against loss.

Backup strategy:

- Daily: Automated backup
- Weekly: Manual export
- Monthly: Off-site storage

Practice 5: Secure Data

Protect customer information.

Security measures:

- Access control
- Encryption
- Audit logs
- Compliance

Common CRM Mistakes to Avoid

Mistake 1: Over-Complicating

Don't implement features you don't need.

Solution:

- Start simple
- Add complexity gradually
- Focus on core needs

Mistake 2: Ignoring Training

Don't expect team to figure it out.

Solution:

- Provide formal training
- Create documentation
- Offer ongoing support

Mistake 3: Poor Data Quality

Don't let bad data accumulate.

Solution:

- Validate on entry
- Clean regularly
- Enforce standards

Mistake 4: No Clear Process

Don't use CRM without process.

Solution:

- Define workflows
- Document procedures
- Train team

Mistake 5: Not Measuring ROI

Don't use CRM without tracking results.

Solution:

- Set KPIs
- Measure regularly
- Optimize based on data

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

Mistake 6: Lack of Adoption

Don't force CRM on unwilling team.

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

Solution:

- Get buy-in first
- Show benefits
- Reward adoption

Mistake 7: Ignoring Feedback

Don't ignore user feedback.

Solution:

- Collect feedback regularly
- Act on suggestions
- Communicate changes

Mistake 8: No Integration

Don't use CRM in isolation.

Solution:

- Integrate with other tools
- Ensure data flows
- Automate workflows

Tips for Success

Tip 1: Start Small, Scale Fast

Begin with pilot team. Learn, optimize, then roll out.

Tip 2: Celebrate Wins

Share success stories. Motivate team.

Tip 3: Be Patient

CRM adoption takes time. Expect 3-6 months for full adoption.

Tip 4: Iterate Continuously

CRM is not set-and-forget. Review and optimize regularly.

Tip 5: Focus on Customer

Remember: CRM is about customer relationship, not software.

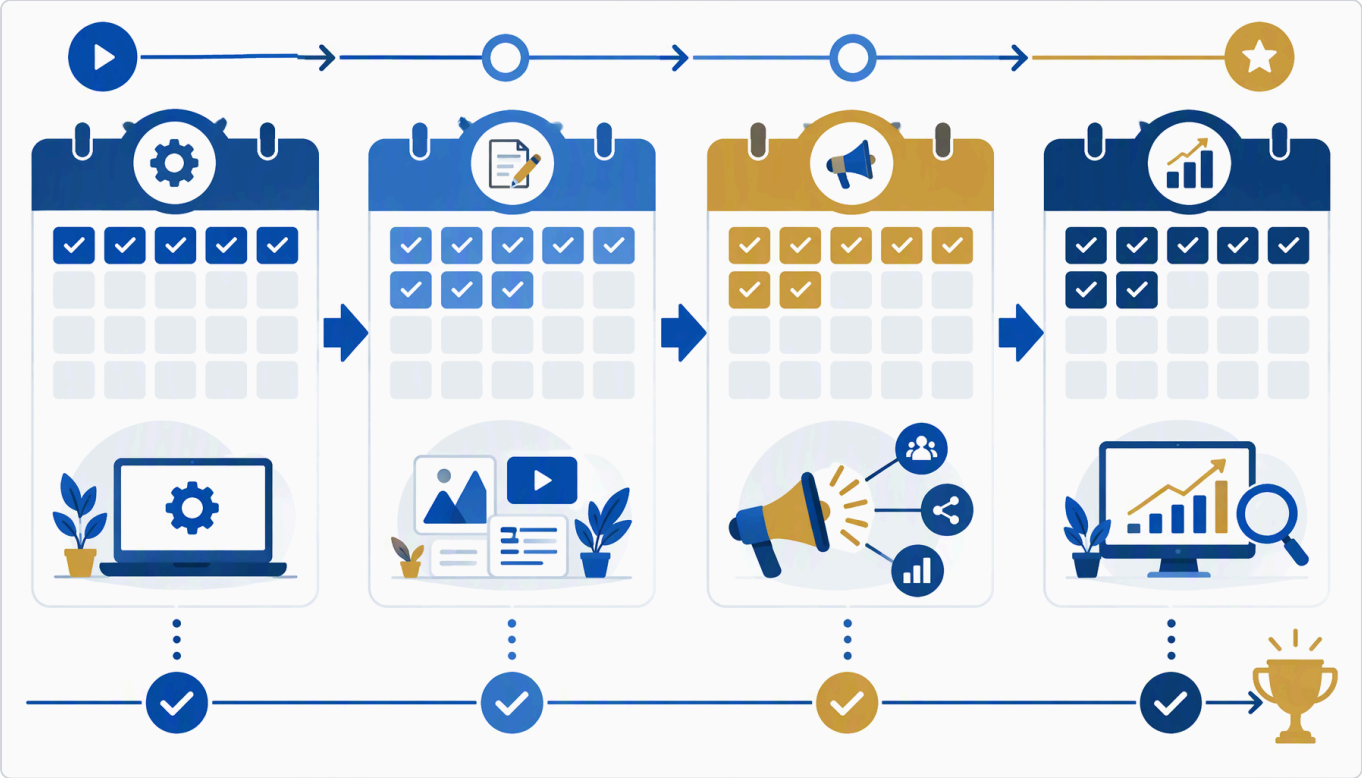
Bab 15: Studi Kasus Nyata



Studi Kasus 1: Kopi Nusantara - Dari Manual ke CRM Otomatis

Latar Belakang: Kopi Nusantara adalah jaringan kafe dengan 5 outlet di Jakarta. Sebelum CRM, mereka mengelola customer data di spreadsheet dan WhatsApp. Follow-up tidak terstruktur, promo tidak terukur, dan customer sering complain karena response lambat.

Tantangan:

- Data customer tersebar di 5 outlet
- Tidak ada sistem follow-up
- Promo tidak efektif
- Customer churn tinggi (40% tidak kembali)
- Response time > 24 jam

Solusi: Implementasi Zoho CRM + WhatsApp integration.

Implementasi:

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

Phase 1: Setup (Bulan 1)

- Import semua data customer dari spreadsheet
- Setup WhatsApp Business API via Qontak
- Create pipeline: Lead → Contacted → Qualified → Closed

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

- Train 10 staff (2 per outlet)

Phase 2: Automation (Bulan 2)

- Auto-reply WhatsApp: "Terima kasih sudah menghubungi Kopi Nusantara. Admin akan balas dalam 5 menit."
- Welcome email otomatis untuk customer baru
- Birthday greeting otomatis
- Follow-up otomatis jika tidak ada transaksi 30 hari

Phase 3: Loyalty Program (Bulan 3)

- Point system: Rp 10.000 = 1 poin
- Tier: Bronze (0-100 poin), Silver (101-500), Gold (501+)
- Rewards: Free drinks, discounts, exclusive access
- Referral program: Ajak teman, dapat 50 poin

Hasil:

Metric 1: Response Time

- Before: > 24 jam
- After: < 5 menit
- Improvement: 99.7%

Metric 2: Customer Retention

- Before: 60% (40% churn)
- After: 85% (15% churn)
- Improvement: 41.7%

Metric 3: Repeat Purchase Rate

- Before: 20%
- After: 45%
- Improvement: 125%

Metric 4: Revenue

- Before: Rp 200 juta/bulan
- After: Rp 320 juta/bulan
- Growth: 60%

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

Metric 5: Customer Satisfaction

- Before: NPS 30
- After: NPS 72

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

- Improvement: 140%

ROI:

- Investment: Rp 15 juta (setup + 6 bulan subscription)
- Revenue increase: Rp 120 juta/bulan x 6 bulan = Rp 720 juta
- ROI: 4,700%

Pelajaran:

- WhatsApp integration adalah game changer untuk pasar Indonesia
- Loyalty program meningkatkan retention signifikan
- Automation menghemat waktu staff 80%
- Data-driven decision making meningkatkan revenue

Studi Kasus 2: Fashion Hub - E-commerce CRM Success Story

Latar Belakang: Fashion Hub adalah brand fashion lokal dengan toko online di Shopify. Mereka mendapat banyak traffic tapi conversion rate rendah (1.5%). Customer complain karena tidak ada follow-up setelah cart abandonment.

Tantangan:

- Cart abandonment rate tinggi (75%)
- Tidak ada sistem follow-up
- Email marketing tidak efektif
- Customer data tidak terintegrasi
- Repeat purchase rate rendah (15%)

Solusi: Implementasi HubSpot CRM + Shopify integration + Email automation.

Implementasi:

Phase 1: Integration (Bulan 1)

- Connect Shopify dengan HubSpot
- Sync semua customer data
- Import order history
- Setup tracking pixels

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

Phase 2: Automation (Bulan 2)

- Abandoned cart email series:
  - Email 1 (1 jam): Reminder + cart link
  - Email 2 (24 jam): Free shipping offer
  - Email 3 (48 jam): Last chance + 10% discount

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

- Welcome series untuk customer baru
- Post-purchase follow-up
- Re-engagement campaign untuk inactive customers

Phase 3: Personalization (Bulan 3)

- Product recommendations based on browsing history
- Segmented email campaigns
- Dynamic content di website
- Personalized offers

Hasil:

Metric 1: Cart Recovery

- Before: 25% recovery rate
- After: 45% recovery rate
- Improvement: 80%

Metric 2: Email Performance

- Open rate: 15% → 35%
- Click rate: 2% → 8%
- Conversion rate: 0.5% → 3%

Metric 3: Customer Retention

- Before: 15% repeat purchase
- After: 35% repeat purchase
- Improvement: 133%

Metric 4: Revenue

- Before: Rp 150 juta/bulan
- After: Rp 280 juta/bulan
- Growth: 87%

Metric 5: Customer Lifetime Value

- Before: Rp 500K
- After: Rp 1.2 juta
- Improvement: 140%

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

ROI:

- Investment: Rp 20 juta (setup + 6 bulan)
- Revenue increase: Rp 130 juta/bulan x 6 bulan = Rp 780 juta

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

- ROI: 3,800%

Pelajaran:

- Abandoned cart automation adalah low-hanging fruit
- Personalization meningkatkan engagement signifikan
- Integration antara tools menghilangkan data silos
- Email marketing masih effective jika done right

Studi Kasus 3: Tech Solutions - B2B CRM Transformation

Latar Belakang: Tech Solutions adalah perusahaan IT services yang melayani B2B clients. Sales team menggunakan spreadsheet untuk track deals. Pipeline tidak jelas, forecasting tidak akurat, dan banyak deals yang stuck di tengah jalan.

Tantangan:

- Sales pipeline tidak terstruktur
- Tidak ada visibility ke deal status
- Forecasting tidak akurat (variance > 50%)
- Sales cycle panjang (90+ hari)
- Win rate rendah (15%)

Solusi: Implementasi Salesforce CRM + Custom pipeline + Advanced analytics.

Implementasi:

Phase 1: Pipeline Design (Bulan 1)

- Define 7 sales stages:
  1. Lead In
  2. Discovery Call
  3. Needs Analysis
  4. Solution Design
  5. Proposal
  6. Negotiation
  7. Closed Won/Lost
- Set entry dan exit criteria untuk setiap stage
- Define probabilities dan timeframes

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

Phase 2: Data Migration (Bulan 2)

- Import 500+ existing leads
- Clean dan deduplicate data

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

- Map historical deals ke pipeline
- Setup data validation rules

Phase 3: Automation (Bulan 3)

- Auto-assignment leads ke sales rep
- Task reminders untuk follow-ups
- Email templates untuk setiap stage
- Approval workflows untuk discounts

Phase 4: Analytics (Bulan 4)

- Custom dashboards untuk sales team
- Pipeline reports
- Forecasting models
- Performance metrics

Hasil:

Metric 1: Pipeline Visibility

- Before: No clear pipeline
- After: Full visibility ke 150+ active deals
- Improvement: 100%

Metric 2: Forecast Accuracy

- Before: 50% variance
- After: 10% variance
- Improvement: 80%

Metric 3: Sales Cycle

- Before: 95 days average
- After: 68 days average
- Improvement: 28% faster

Metric 4: Win Rate

- Before: 15%
- After: 28%
- Improvement: 87%

Metric 5: Revenue

- Before: Rp 500 juta/quarter
- After: Rp 850 juta/quarter

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

- Growth: 70%

ROI:

- Investment: Rp 100 juta (setup + 12 bulan)
- Revenue increase: Rp 350 juta/quarter x 4 quarters = Rp 1.4 miliar
- ROI: 1,300%

Pelajaran:

- Structured pipeline meningkatkan forecast accuracy
- Automation mengurangi admin time 60%
- Analytics membantu identify bottlenecks
- Training sales team critical untuk adoption

Common Themes dari Ketiga Studi Kasus

Theme 1: WhatsApp Integration adalah Kunci Untuk pasar Indonesia, WhatsApp bukan optional. Semua three cases menunjukkan WhatsApp integration sebagai game changer.

Theme 2: Automation Menghemat Waktu Semua cases menunjukkan time savings 60-80% untuk repetitive tasks. Ini allow team fokus pada high-value activities.

Theme 3: Data-Driven Decisions Cases menunjukkan bahwa businesses yang track metrics perform better. You can't improve what you don't measure.

Theme 4: Personalization Works Semua cases menunjukkan increase in engagement dan conversion setelah implementasi personalization.

Theme 5: ROI Signifikan All three cases menunjukkan ROI > 1,000%. CRM investment pays for itself quickly jika implemented properly.

Lessons Learned

Lesson 1: Start with Clear Goals Semua successful cases dimulai dengan clear objectives. Know what you want to achieve before choosing tools.

Lesson 2: Get Team Buy-In Technology is only as good as the people using it. Train dan motivate your team.

Lesson 3: Iterate dan Optimize CRM implementation is not one-time project. Continuously review dan improve.

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

Lesson 4: Focus on Customer Experience CRM is about relationships, not just software. Always prioritize customer experience.

Lesson 5: Measure Everything Track metrics religiously. Data tells you what's working dan what needs improvement.

Bab 16: Roadmap 30 Hari dan Next Steps

30-Hari CRM Implementation Roadmap

Roadmap ini dirancang untuk UMKM yang baru mulai implement CRM. Ikuti step-by-step, jangan skip.

Week 1: Foundation (Hari 1-7)

Hari 1: Assessment dan Goal Setting

- [ ] Audit current customer management process
- [ ] Identify pain points
- [ ] Define goals (SMART: Specific, Measurable, Achievable, Relevant, Time-bound)
- [ ] Get management buy-in
- [ ] Assign project lead

Hari 2: Platform Selection

- [ ] Research CRM platforms (HubSpot, Zoho, Salesforce)
- [ ] Compare features dan pricing
- [ ] Shortlist 3 platforms
- [ ] Sign up for free trials
- [ ] Schedule demos

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

Hari 3: Platform Evaluation

- [ ] Test each platform with sample data
- [ ] Evaluate ease of use
- [ ] Check integration capabilities
- [ ] Assess mobile app quality
- [ ] Get team feedback

Hari 4: Decision dan Purchase

- [ ] Choose platform berdasarkan evaluation
- [ ] Negotiate pricing (use referral codes!)
- [ ] Purchase subscription
- [ ] Setup account
- [ ] Configure basic settings

Hari 5: Data Preparation

- [ ] Collect all existing customer data
- [ ] Clean data (remove duplicates, fix errors)
- [ ] Standardize formats
- [ ] Prepare import file (CSV)
- [ ] Backup original data

Hari 6: Data Migration

- [ ] Import data ke CRM
- [ ] Map fields correctly
- [ ] Validate data integrity
- [ ] Fix any errors
- [ ] Test search dan reporting

Hari 7: Basic Configuration

- [ ] Setup user accounts
- [ ] Define roles dan permissions
- [ ] Configure email integration
- [ ] Setup WhatsApp integration
- [ ] Test all integrations

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

Week 2: Setup dan Training (Hari 8-14)

Hari 8: Pipeline Setup

- [ ] Define sales pipeline stages

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

- [ ] Set entry dan exit criteria
- [ ] Configure probabilities
- [ ] Setup automation rules
- [ ] Test pipeline

Hari 9: Automation Setup

- [ ] Create email templates
- [ ] Setup welcome series
- [ ] Configure follow-up automation
- [ ] Setup task reminders
- [ ] Test automations

Hari 10: Reporting Setup

- [ ] Define KPIs
- [ ] Create custom reports
- [ ] Setup dashboards
- [ ] Configure scheduled reports
- [ ] Test reporting

Hari 11: Team Training (Part 1)

- [ ] Train sales team on basic features
- [ ] Cover contact management
- [ ] Cover deal tracking
- [ ] Cover activity logging
- [ ] Q&A session

Hari 12: Team Training (Part 2)

- [ ] Train on automation features
- [ ] Train on reporting
- [ ] Train on mobile app
- [ ] Hands-on practice

Hari 13: Pilot Program

- [ ] Select pilot team (3-5 users)
- [ ] Start using CRM for real deals
- [ ] Monitor usage
- [ ] Collect feedback
- [ ] Fix issues

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

Hari 14: Pilot Review

- [ ] Review pilot results
- [ ] Identify issues
- [ ] Optimize workflows
- [ ] Update training materials
- [ ] Prepare for full rollout

Week 3: Full Rollout (Hari 15-21)

Hari 15: Full Team Training

- [ ] Train all users
- [ ] Cover all features
- [ ] Provide documentation
- [ ] Set expectations

Hari 16: Go Live

- [ ] Migrate all active deals
- [ ] Start using CRM for all activities
- [ ] Monitor closely
- [ ] Provide support

Hari 17: Data Enrichment

- [ ] Add missing information
- [ ] Update outdated data
- [ ] Segment customers
- [ ] Create custom lists

Hari 18: Integration Testing

- [ ] Test all integrations
- [ ] Verify data sync
- [ ] Check automations
- [ ] Fix any issues

Hari 19: Process Optimization

- [ ] Review workflows
- [ ] Identify bottlenecks
- [ ] Optimize processes
- [ ] Update documentation

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

Hari 20: Advanced Features

- [ ] Setup lead scoring
- [ ] Configure advanced automation
- [ ] Create custom dashboards
- [ ] Setup predictive analytics

Hari 21: Week 3 Review

- [ ] Review usage metrics
- [ ] Collect user feedback
- [ ] Identify improvement areas
- [ ] Plan Week 4 activities

Week 4: Optimization dan Scale (Hari 22-30)

Hari 22: Performance Analysis

- [ ] Analyze KPIs
- [ ] Compare to baseline
- [ ] Identify wins
- [ ] Identify gaps

Hari 23: Optimization

- [ ] Optimize email templates
- [ ] Refine automation rules
- [ ] Improve workflows
- [ ] Update segments

Hari 24: Advanced Automation

- [ ] Setup complex workflows
- [ ] Configure triggers
- [ ] Test thoroughly
- [ ] Deploy

Hari 25: Reporting Enhancement

- [ ] Add more reports
- [ ] Create custom dashboards
- [ ] Setup automated reports
- [ ] Share with stakeholders

Hari 26: Integration Expansion

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

- [ ] Add more integrations
- [ ] Connect accounting software
- [ ] Connect project management
- [ ] Test data flow

Hari 27: User Adoption

- [ ] Monitor usage
- [ ] Identify non-users
- [ ] Provide additional training
- [ ] Celebrate wins

Hari 28: Data Quality

- [ ] Run data quality report
- [ ] Clean duplicates
- [ ] Update missing fields
- [ ] Validate data

Hari 29: Documentation

- [ ] Create user manual
- [ ] Document workflows
- [ ] Create training videos
- [ ] Setup knowledge base

Hari 30: Review dan Next Steps

- [ ] Review 30-day results
- [ ] Celebrate achievements
- [ ] Identify next priorities
- [ ] Plan next 90 days

Next Steps After 30 Days

Month 2: Advanced Features

- Implement AI features
- Setup advanced analytics
- Create custom apps
- Optimize mobile experience

Month 3: Scale dan Optimize

- Add more users

Produk Digital Asli SNISHOP.COM
Dilarang Keras: Copy, Distribusi, Modifikasi
© 2026 Siraj Nur Ihrom - All Rights Reserved

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

- Expand integrations
- Refine processes
- Measure ROI

Month 4-6: Continuous Improvement

- Regular reviews
- Ongoing training
- Process optimization
- Feature expansion

Month 7-12: Strategic Growth

- Advanced automation
- Predictive analytics
- Custom development
- Strategic planning

KPI Targets

30-Day Targets:

- User adoption: > 80%
- Data quality: > 90%
- Pipeline visibility: 100%
- Automation rate: > 50%

90-Day Targets:

- Sales conversion: +20%
- Customer retention: +15%
- Response time: < 2 hours
- Revenue growth: +30%

6-Month Targets:

- ROI: > 300%
- Customer satisfaction: > 80%
- Sales cycle: -25%
- Revenue: +50%

- Freelancers

Checklist for Success

Pre-Implementation:

- ☐ Clear goals defined
- ☐ Team buy-in secured
- ☐ Budget approved
- ☐ Project lead assigned

Implementation:

- ☐ Platform selected
- ☐ Data migrated
- ☐ Users trained
- ☐ Integrations tested

Post-Implementation:

- ☐ KPIs tracked
- ☐ Feedback collected
- ☐ Issues resolved
- ☐ Continuous improvement planned

Common Pitfalls to Avoid

Pitfall 1: Skipping Training Don't assume team will figure it out. Invest in proper training.

© 2026 SNISHOP.COM - Semua Hak Dilindungi | *Dilarang menggandakan, mendistribusikan, atau memodifikasi tanpa izin tertulis*

Pitfall 2: Poor Data Quality Garbage in, garbage out. Clean data before migration.

Pitfall 3: Over-Complicating Start simple. Add complexity gradually.

Pitfall 4: No Clear Process Define workflows before implementation.

Pitfall 5: Ignoring Feedback Listen to users. Iterate based on feedback.

Pitfall 6: Not Measuring ROI Track metrics. Prove value.

Pitfall 7: Lack of Adoption Get buy-in early. Motivate users.

Pitfall 8: No Ongoing Support Provide continuous support dan training.

Final Thoughts

CRM implementation is a journey, not a destination. The 30-day roadmap gives you a structured approach, but success requires ongoing commitment.

Remember:

- Start small, scale fast
- Focus on customer experience
- Data is your friend
- Iterate dan optimize
- Celebrate wins

Your CRM success depends on:

1. Clear goals
2. Team adoption
3. Data quality
4. Continuous improvement

Start today. Follow the roadmap. Measure results. Optimize relentlessly.

Good luck!
